

FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Act provides that the State and Territories *must assess the operation of the State child health plan in each Federal fiscal year, and report to the Secretary, by January 1 following the end of the Federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children. The State is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The State is also out of compliance if any section of this report relevant to the State's program is incomplete.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- Recognize the ***diversity*** of State approaches to CHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

The CHIP Annual Report Template System (CARTs) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: 1115 Demonstration Waivers (Financed by CHIP)
- Section VI: Program Challenges and Accomplishments

* - When "State" is referenced throughout this template, "State" is defined as either a state or a territory.

**FRAMEWORK FOR THE ANNUAL REPORT OF
THE CHILDREN'S HEALTH INSURANCE PLANS
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.

State/Territory: OK
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: _____
Michael Fogarty

CHIP Program Name(s): All, Oklahoma

CHIP Program Type:
 CHIP Medicaid Expansion Only
 Separate Child Health Program Only
 Combination of the above

Reporting Period: 2011 Note: Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011.

Submission Date: 2/27/2012

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

SECTION I: SNAPSHOT OF CHIP PROGRAM AND CHANGES

- 1) To provide a summary at-a-glance of your CHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different CHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table. Please note that the numbers in brackets, e.g., [500] are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

This section consists of three subsections that gather information on the initial core set of children's health care quality measures for the CHIP and/or Medicaid program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the initial core set of measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

SECTION IIA: REPORTING OF THE INITIAL CORE SET OF CHILDREN'S HEALTH CORE QUALITY MEASURES

Section 401(a) of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) (Pub.L. 111-3) required the Secretary of the Department of Health and Human Services to identify an initial core set of child health care quality measures for voluntary use by State programs administered under titles XIX and XXI, health insurance issuers and managed care entities that enter into contract with such programs, and providers of items and services under such programs. Additionally, Section 401(a)(4) required the development of a standardized reporting format for states that volunteer to report on the initial core set of measures. This section of CARTS will be used for standardized reporting on the initial core set of measures.

States that volunteer are required to report using the standardized methodologies and specifications and report on the populations to which the measures are applied. Below are the measure stewards and general description of the measures. Please reference the Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures for detailed information for standardized measure reporting.

The Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures can be found:

<http://www.cms.gov/MedicaidCHIPQualPrac/Downloads/CHIPRACoreSetTechManual.pdf>

The reporting of the Initial Care Set of Measures 1-23 is voluntary. Title XXI programs are required to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.

	Measure	Measure Steward	Description	Reporting
1	Prenatal and Postpartum Care: Timeliness of Prenatal Care	NCQA/HEDIS	The percentage of deliveries of live births between November 6 of the year prior to the measurement year and November 5 of the measurement year that received a prenatal care visit in the first trimester or within 42 days of enrollment	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
2	Frequency of Ongoing Prenatal Care	NCQA/HEDIS	Percentage of deliveries between November 6 of the year prior to the measurement year and November 5 of the measurement year that received the following number of visits: < 21 percent of expected visits 21 percent – 40 percent of expected visits 41 percent – 60 percent of expected visits 61 percent – 80 percent of expected visits ≥ 81 percent of expected visits	Measure is voluntary.
3	Percentage of live births weighing less than 2,500 grams	CDC	Percentage of resident live births that weighed less than 2,500 grams in the State reporting period	Measure is voluntary.
4	Cesarean Rate for Nulliparous Singleton Vertex	California Maternal Care Collaborative	Percentage of women who had a cesarean section (C-section) among women with first live singleton births (also known as nulliparous term singleton vertex [NTSV] births) at 37 weeks of gestation or later	Measure is voluntary.
5	Childhood Immunization Status	NCQA/HEDIS	Percentage of children who turned 2 years old during the measurement year who had specific vaccines by their second birthday.	Measure is voluntary.
6	Immunizations for Adolescents	NCQA/HEDIS	Percentage of adolescents who turned 13 years old during the measurement year who had specific vaccines by their thirteenth birthday.	Measure is voluntary.
7	Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents: BMI Assessment for Children/Adolescents	NCQA/HEDIS	Percentage of children, 3 through 17 years of age, whose weight is classified based on BMI percentile for age and gender.	Measure is voluntary.
8	Developmental Screening in the First Three Years of Life	Child and Adolescent Health Measurement Initiative and NCQA	Percentage of children screened for risk development, behavioral, and social delays using a standardized, screening tool in the first, second, and third year of life	Measure is voluntary.
9	Chlamydia Screening	NCQA/HEDIS	Percentage of women 16- 20 who were identified as sexually active who had at least one test for Chlamydia during the measurement year	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
10	Well Child Visits in the First 15 Months of Life	NCQA/HEDIS	Percentage of children who had zero, one, two, three, four, five, and six or more well child visits with a primary care practitioner during their first 15 months of life	Measure is voluntary.
11	Well Child Visits in the 3 rd , 4 th , 5 th , and 6 th Years of Life	NCQA/HEDIS	Percentage of children age 3 to 6 years old who had one or more well-child visits with a primary care practitioner during the measurement year.	Measure is voluntary.
12	Adolescent Well-Care Visits	NCQA/HEDIS	Percentage of adolescents age 12 through 21 years who had at least one comprehensive well-care visit with a primary care practitioner or an OB/GYN practitioner during the measurement year.	Measure is voluntary.
13	Percentage of Eligibles who Received Preventive Dental Services	CMS	Percentage of eligible children ages 1-20 who received preventive dental services	Measure is voluntary.
14	Children and Adolescents' Access to Primary Care Practitioners	NCQA/HEDIS	Percentage of children and adolescents 12 months – 19 years of age who had a visit with a primary care practitioner (PCP). Four separate percentages are reported: <ul style="list-style-type: none"> • Children 12- 24 months and 25 months – 6 years who had a visit with a PCP during the measurement year • Children 7 – 11 years and adolescents 12 – 19 years who had a visit with a PCP during the measurement year or the year prior to the measurement year 	Measure is voluntary.
15	Appropriate Testing for Children with Pharyngitis	NCQA/HEDIS	Percentage of children who were diagnosed with pharyngitis, dispensed an antibiotic and who received a group A streptococcus test for the episode	Measure is voluntary.
16	Otitis Media with Effusion – avoidance of inappropriate use of systemic antimicrobials in children – ages 2-12	American Medical Association/ Physician Consortium for Performance Improvement	Percentage of children ages 2 months through 12 years with a diagnosis of otitis media with effusion (OME) who were not prescribed systemic antimicrobials	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
17	Percentage of Eligibles who Received Dental Treatment Services	CMS	Percentage of eligible children Ages 1-20 who received dental treatment services	Measure is voluntary.
18	Ambulatory Care: Emergency Department Visits	NCQA/HEDIS	The number of emergency department visits per child/adolescent per year as a function of all children and adolescents enrolled and eligible during the measurement year	Measure is voluntary.
19	Pediatric central-line associated blood stream infections – NICU and PICU	CDC	Rate of central line-associated blood stream infections (CLABSI) in the pediatric and neonatal intensive care units during periods selected for surveillance	Measure is voluntary.
20	Annual percentage of asthma patients (2-20 yo) with 1 or more asthma-related emergency room visits	Alabama Medicaid	Percentage of children 2-20 years of age diagnosed with asthma during the measurement year with one or more asthma-related ER visits	Measure is voluntary.
21	Follow-Up Care for Children Prescribed Attention-Deficit Hyperactivity Disorder (ADHD) Medication	NCQA/HEDIS	Percentage of children newly prescribed ADHD medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days from the time when the first ADHD medication was dispensed. Two rates are reported: one for the initiation phase and one for the continuation and maintenance phase	Measure is voluntary.
22	Annual Pediatric hemoglobin A1C testing	NCQA	Percentage of children with diabetes and an HbA1c test during the measurement year.	Measure is voluntary.
23	Follow-up after hospitalization for mental illness	NCQA/HEDIS	Percentage of discharges for children 6 years of age and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter or partial hospitalization with a mental health practitioner	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
24	Consumer Assessment Of Healthcare Providers And Systems (CAHPS®) Health Plan Survey 4.0H (Child version including Medicaid and Children with Chronic Conditions supplemental items)	NCQA/HEDIS	Survey on parents' experience with their child's care	<p>Reporting Required in 2013</p> <p>Title XXI programs are <u>required</u>¹ to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.</p> <p>If States are already working with the Agency for Healthcare Research and Quality (AHRQ) to report CAHPS, they can continue doing so. We ask that States indicate in CARTS that they have submitted CAHPS data to AHRQ and using the CARTS attachment facility, provide a copy of the CAHPS results to CMS (do not submit raw data on CAHPS to CMS).</p>

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second columns, data from the previous to years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS; enter data in these columns only if changes must be made. If you previously reported no data for either of those years, but you now have recent data for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011). Additional instructions for completing each row of the table are provided below.

If Data Not Reported, Please Explain Why:

Beginning in 2011, the CARTS application will require States to provide information on why they chose not to report a measure(s) in Section IIA. The CARTS user will be prompted to provide this information for each measure during data entry. If the CARTS User skips these questions during the data entry process, he/she will be prompted to respond to them before being able to certify the Annual Report.

If you cannot provide a specific measure, please check the box that applies to your State for each measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.

¹ P.L. 111-3, §402(a)(2)(e)

- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the denominator size for a particular measure is less than 30. If the denominator size is less than 30, your State is not required to report a rate on the measure. However, please indicate the exact denominator size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

Although the Initial Core Set of Measures is voluntarily reported, if the State is not reporting data on a specific measure, it is important to complete the reason why the State is not reporting the measure. It is important for CMS to understand why each State and why all States as a group may not be reporting on specific measures. Your selection of a reason for not reporting and/or provision of an “other” reason for not reporting will assist CMS in that understanding.

Status of Data Reported:

Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for the current CARTS reporting period.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for the current CARTS reporting period.
- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:

For each measure, please indicate whether the measure is based on HEDIS® technical specifications, the specifications developed by other measure stewards listed in the Technical Specifications and Resource Manual (e.g. CMS, CDC, AMA/PCPI), or “other” measurement specifications. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed. States should use the technical specifications outlined in the Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures.

HEDIS® Version:

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user selects the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

Data Source:

For each measure, please indicate the source of data or methodology used to calculate the measure – administrative data (such as claims and encounters) (specify the kind of administrative data used); hybrid methods (combining administrative data and medical records) (specify how the two were used to create the rate); survey data (specify the survey used); or other source (specify the other source).

Definition of Population included in the Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure.

Denominator: Please indicate the definition of the population included in the denominator for each measure by checking one box to indicate whether the data are for the CHIP population only, the Medicaid population only, or include both CHIP and Medicaid (Title XIX) children combined.

If the denominator reported is not fully representative of the population defined above (the CHIP population only, the Medicaid population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator, including those who are excluded from the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

Deviation from Measure Technical Specification

If the data provided for a measure deviates from the measure technical specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other (please describe in detail).

When one or more of the types are selected, States are required to provide an explanation.

Year of Data: not available for the 2011 CARTS reporting period.

Please report the year of data for each measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Date Range: available for 2011 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year that corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year that corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Initial Core Set Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators for each measure (or component). The template provides two sections for entering the data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

Note: 2011 CARTS will calculate the rate when you enter the numerator and denominator.

For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator (If you typically calculate separate rates for each health plan or delivery system, report the aggregate state-level rate for each measure [or component]. The preferred method is to calculate a single state-level “weighted rate” based on the distribution of the eligible population included in each separate rate.) Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.

Explanation of Progress:

The intent of this section is to allow your State to demonstrate how you are using the measures. Please highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

CHIPRA Quality Demonstration States have the option of reporting State developed quality measures through CARTS. Instructions may be found on page 25 in the web-based template and after core measure 24 on the Word template.

EQRO Requirement: States with CHIP managed care that have existing external quality review organization (EQRO) reports are required to submit EQRO reports as an attachment.

Is the State submitting an EQRO report as an attachment to the 2011 CARTS?

Yes No

If yes, please provide a further description of the attachment. [7500]

xx

If the State is not submitting an EQRO report as an attachment to the 2011 CARTS, please explain. [7500]

Explanation of Progress:

How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? The OHCA maintained the agency's activities such as incentive performance SonnerExcel EPSDT bonus payments, provider training via producing the provider manual, EPSDT screening video for providers, EPSDT member notices of check-ups due, website publications, and outreach programs for households with newborns. Additionally, the OHCA has implemented the newborn enrollment program. This program, in collaboration with hospital facilities, enrolls newborns who qualify for SoonerCare services before they leave the hospital. This is to ease the paperwork burden of the parents and help enroll children who are eligible for SoonerCare services to shorten the time the child is without health insurance to receive services such as well child visits.

What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? During the FFY 2011, Quality Assurance/Quality Improvement staff conducted medical home provider audits in which child health screenings were audited, reviewed, and discussed. Additionally, SoonerExcel EPSDT quarterly incentive payments were given to medical home providers whom exceeded the compliance rate for well child screenings as well as incentivized medical home providers to perform initial and periodic well child screening services. Furthermore, the Quality Assurance/Quality Improvement department sends out bi-annual medical home provider EPSDT profiles that displays the medical home provider 's ranking among peers based on well child services observed compared to the number of well child services that were expected based upon the medical home provider's panel.

Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.

Annual Performance Objective for FFY 2012: The OHCA is currently reprocessing data for FFY 2009 and FFY 2010 to obtain numbers and rates that can be comparable to FFY 2011 data.

This step is vital to better assist the OHCA in setting targets and objectives for future years. The OHCA's FFY 2012 objective is to report FFY 2010 data and to review rate increases, decreases, and fluctuations in order to better understand SoonerCare rate for this measure and to ascertain future projections and goals.

Annual Performance Objective for FFY 2013: The OHCA will continually strive to improve the care received by SoonerCare members through continued monitoring of this measure and continuation of agency activities that demonstrate positive results. Changes in objectives and interventions for the future year will be based on measure results.

Annual Performance Objective for FFY 2014: : The OHCA will continually strive to improve the care received by SoonerCare members through continued monitoring of this measure and continuation of agency activities that demonstrate positive results. Changes in objectives and interventions for the future year will be based on measure results.

Explain how these objectives were set: The OHCA strives to improve the quality of health care delivered and received by all of our members.

<p>Explanation of Progress:</p> <p>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? The OHCA continues to implement provider audits in order to uphold the integrity of quality of care the medical homes are providing. Additionally, OHCA has services in place such as requiring Tier 3 medical homes to provide after hours care outside of normal business hours and to be available to be on call or provide a phone number to the member when the medical home is unavailable.</p> <p>What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? During the FFY 2011, Quality Assurance/Quality Improvement compliance staff conducted numerous onsite provider audits across OHCA's medical homes. These audits included reviewing and discussing after hours care, availability of sick care appointments requirements, follow-up care procedures, and tracking methodology which are all integral parts of the medical home model and important factors of access to medical homes, OHCA's primary care providers.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2012: The OHCA is currently reprocessing data for FFY 2009 and FFY 2010 to obtain numbers and rates that can be comparable to FFY 2011 data. This step is vital to better assist the OHCA in setting targets and objectives for future years. The OHCA's FFY 2012 objective is to report FFY 2010 data and to review rate increases, decreases, and fluctuations in order to better understand SoonerCare rate for this measure and to ascertain future projections and goals.</p> <p>Annual Performance Objective for FFY 2013: The OHCA will continually strive to improve the care received by SoonerCare members through continued monitoring of this measure and continuation of agency activities that demonstrate positive results. Changes in objectives and interventions for the future year will be based on measure results.</p> <p>Annual Performance Objective for FFY 2014: The OHCA will continually strive to improve the care received by SoonerCare members through continued monitoring of this measure and continuation of agency activities that demonstrate positive results. Changes in objectives and interventions for the future year will be based on measure results.</p>		

FFY 2009	FFY 2010	FFY 2011
<i>Explain how these objectives were set:</i> The OHCA strives to improve the quality of health care delivered and received by all of our members.

Reporting of State-specific measures:

In addition to reporting the CHIPRA core set quality measures, if your State has developed State-specific quality measures as part of the CHIPRA Quality Demonstration Grant project, the State may report that data in CARTS. The State may attach documents/data regarding the state-specific measures by using the CARTS attachment facility. Please provide a brief description of the attachment in the space provided when submitting the attachment.

Is the State attaching any state-specific quality measures as a CARTS attachment?

Yes No

SECTION IIB: ENROLLMENT AND UNINSURED DATA

- The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your State's 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2010	FFY 2011	Percent change FFY 2010-2011
CHIP Medicaid Expansion Program	115909	114597	-1.13
Separate Child Health Program	6965	5904	-15.23

- Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**

More children may have become eligible for Medicaid.

- The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2009-2010. Significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. CARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2011 Annual Report Template.

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number	Std. Error	Rate	Std. Error
1996 - 1998	116	18.8	12.6	2.0
1998 - 2000	102	17.7	12.1	2.0
2000 - 2002	98	13.9	10.6	1.4
2002 - 2004	86	13.1	9.4	1.4
2003 - 2005	86	14.1	9.5	1.5
2004 - 2006	77	14.0	8.4	1.5
2005 - 2007	70	13.0	7.4	1.4

2006 - 2008	63	13.0	6.6	1.3
2007 - 2009	55	12.0	5.7	1.2
2008 - 2010	59	8.0	6.0	.8
Percent change 1996-1998 vs. 2008-2010	-49.1%	NA	-52.4%	NA

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**

B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates. **[7500]**

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

Yes (please report your data in the table below)

No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children. **[7500]**

B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.) **[7500]**

C. What are the limitations of the data or estimation methodology? **[7500]**

D. How does your State use this alternate data source in CHIP program planning? **[7500]**

4. How many children do you estimate have been enrolled in Medicaid as a result of CHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information **[7500]**

16% of Medicaid children were estimated to be enrolled as a result of CHIP outreach and enrollment simplification. (MMIS Data)

SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP State Plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS. If you previously reported data in the 2 previous years reports (2009 and/or 2010) and you want to update/change the data please enter that data. If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011).

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not report elsewhere in Section II.

Additional instructions for completing each row of the table are provided below.

Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.

- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

Status of Data Reported:

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2010.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for FFY 2011.
- Same data as reported in a previous year’s annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

HEDIS® Version:

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user selects the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure

For measures related to increasing access to care and use of preventative care, please check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.

- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

Deviations from Measure

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected..

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other.

When one or more of the types are selected, states are required to provide an explanation.

Year of Data: not available for the 2011 CARTS reporting period.

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Date Range: available for 2011 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

Note: CARTS will calculate the rate when you enter the numerator and denominator.

For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator (If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure [or component]). The preferred method is to calculate a “weighted rate”

by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator.) **Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.**

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. Any quality improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality improvement activity is a state-wide initiative to inform individual families directly of their children's immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions)

Other Comments on Measure:	Other Comments on Measure:	Other Comments on Measure:

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

There is no separation between the CHIP and TXIX population for QA/QI purposes at the OHCA. Currently, the OHCA relies on quality assessment and performance studies and annual HEDIS® reports to report on the access and quality of care SoonerCare members receive in both the CHIP and TXIX populations. These reports include the following HEDIS® measures for our children and adolescent populations: lead screening, appropriate treatment for children with URI, appropriate testing for children with pharyngitis, annual dental visits, well child visits in the first 15 months of life, well child visits in the third, fourth, fifth, and sixth years of life, adolescent well child visits, annual dental visits, use of appropriate medications for people with asthma, and children and adolescents' access to primary care practitioners. In addition to the HEDIS® reports, QA/QI also produces bi-annual provider profiles of EPDST screenings and ER usage over the SoonerCare population.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

There is no separation in the CHIP and TXIX population for QA/QI at the OHCA. There are three quality assessment and performance studies scheduled for SFY 2012 that focus primarily on this population. One study will be on the use of atypical antipsychotic medications in children and adolescents. The other two planned studies include a weight assessment study and a study investigating behavioral health therapy and rehab services.

The OHCA has begun implementing the capturing data for the required CHIPRA (Children's Health Insurance Reauthorization Act) pediatric quality care measures for the TXIX population, which includes those in the CHIP programs. OHCA plans to create and collect baseline measures for all 23 required CHIPRA measures during FFY 2012 with future reporting of these measures in the FFY 2012 CARTS Annual Report.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

There is no separation in the CHIP and TXIX population for QA/QI at the OHCA. Annual quality studies will return in SFY 2012 as will the ECHO survey, which is run on a biennial basis for this population. During SFY 2011, the OHCA conducted the CAHPS® survey for children and adolescents. The results of that survey indicated in the primary health plan and health care domains, there were no significant differences compared to the 2009 survey results.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives health coverage initiatives. **[7500]**

NA

Enter any Narrative text below **[7500]**.

SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

Please reference and summarize attachments that are relevant to specific questions

A. OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period? [7500]

Health Care Authority was awarded a CHIPRA Outreach and Enrollment grant in September 2009 in the amount of \$988,177 to launch SoonerEnroll, an initiative focused on enrolling qualified children in SoonerCare. A primary goal of SoonerEnroll is to create an outreach infrastructure to serve as a vehicle for efficient and effective outreach beyond the scope of the grant. The initiative employs a number of state and community-level strategies. Four regional coordinators, with assistance from temporary community outreach associates, provide training and technical assistance to community partners and work closely with them in the development, implementation and evaluation of action plans designed to meet the needs of local communities. There are specific outreach efforts focused on increasing enrollment and retention among Hispanic and American Indian children.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? [7500]

OHCA works with a number of state and community partners (public, private and nonprofit) across the state to identify children qualified for but not currently enrolled in SoonerCare. These partners have contact with qualified families and in many cases have developed trusting relationships. OHCA is a very centralized agency; therefore, our partners provide a community presence necessary for effective outreach and with capacity-building support from SoonerEnroll staff can conduct outreach on the agency's behalf. Partners include but are not limited to child care centers/home, Head Start/Early Head Start, public schools, social service organizations, health care providers, faith-based organizations, community centers and federal/state agencies. OHCA has a contract with an independent evaluator to measure the effectiveness of grant efforts in reducing the number of qualified children who are not enrolled in SoonerCare.

3. Which of the methods described in Question 2 would you consider a best practice(s)? [7500]

Development of capacity among local-level partners to conduct outreach and integrate with intake or business processes.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes

No

Have these efforts been successful, and how have you measured effectiveness? [7500]

SoonerEnroll includes outreach focused on Hispanic and American Indian children given higher uninsured rates. OHCA has a contract with an independent evaluator to measure the effectiveness of grant efforts in reducing the number of qualified children who are not enrolled in SoonerCare.

5. What percentage of children below 200 percent of the Federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? [5] 84.5

(Identify the data source used). [7500]

<http://www.insurekidsnow.gov/professionals/reports/index.html> 84.5%

2011 US Census CPS data using Table creator at

http://www.census.gov/hhes/www/cpssc/cps_table_creator.html

There are 15.89% uninsured children under 200 percent in Oklahoma as per US Census 2011 CPS data.

B. SUBSTITUTION OF COVERAGE (CROWD-OUT)

All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.

1. Do you have substitution prevention policies in place?

- Yes
 No

If yes, indicate if you have the following policies:

- Imposing waiting periods between terminating private coverage and enrolling in CHIP
 Imposing cost sharing in approximation to the cost of private coverage
 Monitoring health insurance status at the time of application
 Other, please explain **[7500]**

2. Describe how substitution of coverage is monitored and measured and how the State evaluates the effectiveness of its policies. **[7500]**

We define crowd out as the number of SCHIP enrollees who voluntarily dropped private employer/individual insurance prior to enrolling in SCHIP out of (divided by) the total number of SCHIP enrollees. Oklahoma had surveyed SCHIP enrollees in the past using a statistically-valid survey instrument to determine whether or not they voluntarily dropped existing private health insurance due to the availability of publically funded SCHIP coverage and the numbers were low. Due to budget shortfalls we did not conduct a survey for this reporting period.

3. Identify the trigger mechanism or point at which your substitution prevention policy is instituted or modified if you currently have a substitution policy. **[7500]**

At the time of application applicants are required to provide details of their current insurance status-see below;

1. Does anyone in the household have health insurance? Yes * No * If yes, answer the following;
 - i. Insurance company name, address and phone number
 - ii. Group or policy number
 - iii. Person covered
 - iv. Type of coverage (major medical, dental, HMO, etc.)
 - v. Effective date
 - vi. Policy holder's name and Social Security number
 - vii. Relationship of policy holder to insured
2. I agree to tell SoonerCare within 10 days if there are any changes in our income, the people who live in our home, where we live or get our mail and/or out health insurance.
3. Based on confirmation of the above information by the Third Party Liability unit, the system assigns a unique identifier to CHIP kids (those without credible coverage) which separates them from Medicaid kids.

All States must complete the following questions

4. At the time of application, what percent of CHIP applicants are found to have Medicaid [(# applicants found to have Medicaid/total # applicants) * 100] **[5]**
and what percent of applicants are found to have other group insurance [(# applicants found to have other

insurance/total # applicants) * 100] **[5]**?

Provide a combined percent if you cannot calculate separate percentages. **[5]** 19.16

5. What percent of CHIP applicants cannot be enrolled because they have group health plan coverage **[5]**

a. Of those found to have had other, private insurance and have been uninsured for only a portion of the state's waiting period, what percent meet your state's exemptions to the waiting period (if your state has a waiting period and exemptions) [(# applicants who are exempt/total # of new applicants who were enrolled)*100]? **[5]**

6. Does your State have an affordability exception to its waiting period?

- Yes
 No

If yes, please respond to the following questions. If no, skip to question 7.

a. Has the State established a specific threshold for defining affordability (e.g., when the cost of the child's portion of the family's employer-based health insurance premium is more than X percent of family income)?

- Yes
 No

If the State has established a specific threshold, please provide this figure and whether this applies to net or gross income. If no, how does the State determine who meets the affordability exception? **[7500]**

b. What expenses are counted for purposes of determining when the family exceeds the affordability threshold? (e.g., Does the State consider only premiums, or premiums and other cost-sharing charges? Does the State base the calculation on the total premium for family coverage under the employer plan or on the difference between the amount of the premium for employee-only coverage and the amount of the premium for family coverage? Other approach?) **[7500]**

c. What percentage of enrollees at initial application qualified for this exception in the last Federal Fiscal Year? (e.g., Number of applicants who were exempted because of affordability exception/total number of applicants who were enrolled). **[5]**

d. Does the State conduct surveys or focus groups that examine whether affordability is a concern?

- Yes
 No

If yes, please provide relevant findings. **[7500]**

7. If your State does not have an affordability exception, does your State collect data on the cost of health insurance for an individual or family? **[7500]**

No

8. Does the State's CHIP application ask whether applicants have access to private health insurance?

- Yes
 No

If yes, do you track the number of individuals who have access to private insurance?_

- Yes
 No

If yes, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last Federal Fiscal Year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)*100]? **[5]**

C. ELIGIBILITY

(This subsection should be completed by all States)

Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Section IIIC: Subpart A: Overall CHIP and Medicaid Eligibility Coordination

1. Does the State use a joint application for establishing eligibility for Medicaid or CHIP?

- Yes
 No

If no, please describe the screen and enroll process. **[7500]**

2. Please explain the process that occurs when a child's eligibility status changes from Medicaid to CHIP and from CHIP to Medicaid. Have you identified any challenges? If so, please explain. **[7500]**

System changes the child's status accordingly after the eligibility worker or individual records change in circumstances

3. Are the same delivery systems (such as managed care or fee for service,) or provider networks used in Medicaid and CHIP? **[7500]**

- Yes
 No

If no, please explain. **[7500]**

4. Do you have authority in your CHIP State plan to provide for presumptive eligibility, and have you implemented this? Yes No

If yes

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? [5]
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination those children are determined eligible and enrolled? [5]

Section IIIC: Subpart B: Initial Eligibility, Enrollment, and Renewal for CHIP (Title XXI) and Medicaid (Title XIX) Programs

Table B1

This section is designed to assist CMS and the States track progress on the “5 out of 8” eligibility and enrollment milestones. It will not be used to determine CHIPRA performance bonus payments.

Program Feature	Question	Medicaid	CHIP
Continuous Eligibility	<p>1. Does the State provide continuous eligibility for 12 months for children regardless of changes in circumstances other than the situations identified below:</p> <p>a. child is no longer a resident of the State;</p> <p>b. death of the child;</p> <p>c. child reaches the age limit;</p> <p>d. child/representative requests disenrollment;</p> <p>e. child enrolled in a separate CHIP program files a Medicaid application, is determined eligible for Medicaid and is enrolled in Medicaid without a coverage gap.</p>	<p>In accordance with section 1902(e)(12) of the Act</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>
Liberalization of Asset (or Resource Test) Requirements	<p>2. Does the State have an assets test?</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>

	3. If there is an assets test, does the State allow administrative verification of assets?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
Elimination of In-Person Interview	4. Does the State require an in-person interview to apply?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	5. Has the State eliminated an in-person requirement for renewal of CHIP eligibility?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Use of Same Application and Renewal Forms and Procedures for Medicaid and CHIP	6. Does the State use the same application form, supplemental forms, and information verification process for <i>establishing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
	7. Does the State use the same application form, supplemental forms, and information verification process for <i>renewing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Automatic/Administrative Renewal	8. For renewals of Medicaid or CHIP eligibility, does the State provide a preprinted form populated with eligibility information available to the State, to the child or the child's parent or other representative, along with a notice that eligibility will be renewed and continued based on such information unless the State is provided other information that affects eligibility?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	9. Does the State do an ex parte renewal? Specifically, does the State renew Medicaid or CHIP eligibility to the maximum extent possible based on information contained in the individual's Medicaid file or other information available to the State, before it seeks any information from the child's parent or representative?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No	If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No
Presumptive Eligibility	10. Does the State provide presumptive eligibility to children	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

	who appear to be eligible for Medicaid and CHIP to enroll pending a full determination of eligibility?		
Express Lane Eligibility	11. Are you utilizing the Express Lane option in making eligibility determinations and/or renewals for both Medicaid and CHIP?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
			If yes, which Express Lane Agencies are you using? <input type="checkbox"/> Supplemental Nutrition Assistance Program (SNAP), formerly Food Stamps <input type="checkbox"/> Tax/Revenue Agency <input type="checkbox"/> Unemployment Compensation Agency <input type="checkbox"/> Women, Infants, and Children (WIC) <input type="checkbox"/> Free, Reduced School Lunch Program <input type="checkbox"/> Subsidized Child Care Program <input type="checkbox"/> Other, please explain. [7500]
			If yes, what information is the Express Lane Agency providing? <input type="checkbox"/> Income <input type="checkbox"/> Resources <input type="checkbox"/> Residency <input type="checkbox"/> Age <input type="checkbox"/> Citizenship <input type="checkbox"/> Other, please explain. [7500]
Premium Assistance	12. Has the State implemented premium assistance as added or modified by CHIPRA?	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Section IIIC: Subpart C: Eligibility Renewal and Retention

CHIP (Title XXI) and Medicaid (Title XIX) Programs

1. What additional measures, besides those described in Tables B1 or C1, does your State employ to simplify an eligibility renewal and retain eligible children in CHIP?

- Conducts follow-up with clients through caseworkers/outreach workers
- Sends renewal reminder notices to all families
 - How many notices are sent to the family prior to disenrolling the child from the program?
[500]
 2 notices
 - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?) **[500]**
 45 days from disenrollment; 10 days from disenrollment
- Other, *please explain*: **[500]**

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. [7500]

Both strategies are effective.

Section IIIC: Subpart D: Eligibility Data

Table 1. Application Status of Title XXI Children in FFY 2011

States are required to report on questions 1 and 2 in FFY 2011. Reporting on questions 2.a., 2.b., and 2.c. is voluntary in FFY 2011 and FFY 2012. Reporting on questions 2.a., 2.b., and 2.c. is required in 2013. Please enter the data requested in the table below and the template will tabulate the requested percentages.

	Number	Percent
1. Total number of title XXI applicants	466217	100
2. Total number of application denials	73197	15.7
a. Total number of procedural denials		
b. Total number of eligibility denials		
i. Total number of applicants denied for title XXI and enrolled in title XIX		
c. Total number of applicants denied for other reasons Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)		

3. Please describe any limitations or restrictions on the data used in this table:

Definitions:

1. The “total number of title XXI applicants,” including those that applied using a joint application form, is defined as the total number of applicants that had an eligibility decision made for title XXI in FFY 2011. This measure is for applicants that have not been previously enrolled in title XXI or they were previously enrolled in title XXI but had a break in coverage, thus requiring a new application. Please include only those applicants that have had a Title XXI eligibility determination made in FFY 2011 (e.g., an application that was determined eligible in September 2011, but coverage was effective October 1, 2011 is counted in FFY 2011).
2. The “the total number of denials” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2011. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2011 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
 - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2011 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX
 - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Table 2. Redetermination Status of Children Enrolled in Title XXI

For this table, States may voluntarily report in 2011 and 2012. Reporting is required for 2013.

Is the State reporting this data in the 2011 CARTS?

- Yes (complete) State is reporting all measures in the redetermination table.
- Yes (but incomplete) Please describe which measures the State did not report on, and why the State did not report on these measures.
Explain: [7500]
- No If the State is not reporting any data, please explain why.
Explain: [7500] We have a new online enrollment system (real time) and we are working to get this data.

Please enter the data requested in the table below in the "Number" column, and the template will automatically tabulate the percentages.

	Number	Percent			
1. Total number of children who are eligible to be redetermined		100%			
2. Total number of children screened for redetermination			100%		
3. Total number of children retained after the redetermination process					
4. Total number of children disenrolled from title XXI after the redetermination process				100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures					
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria					100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/>)					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/>)					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid expansion and this data is not relevant check here <input type="checkbox"/>)					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here					

<input type="checkbox"/>)					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any State policies or procedures that may have impacted the redetermination outcomes data.

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in Federal Fiscal Year (FFY) 2011, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total number may include children whose eligibility can be renewed through administrative redeterminations, whereby the State sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes. This total may also include ex parte redeterminations, the process when a State uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the State for redetermination in FFY 2011 (i.e., those children whose families have returned redetermination forms to the State, as well as administrative redeterminations and ex parte redeterminations).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2011.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2011. This includes those children that States may define as “transferred” to Medicaid for title XIX eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2011 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their State’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.

- c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.

The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XXI, Second Quarter FFY 2012

The purpose of this table is to measure title XXI enrollees’ duration, or continuity, of public coverage (title XIX and title XXI). This information is required by CHIPRA, Section 402(a). **Reporting is not required until 2013, but States will need to identify newly enrolled children in the second quarter of FFY 2012 (January, February, and March of 2012). If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary.**

Instructions: For this prospective duration measure, please identify newly enrolled children in title XXI in the second quarter of FFY 2012, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2012 must have birthdates after July 1995 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2012 must have birthdates after August 1995, and children enrolled in March 2012 must have birthdates after September 1995. Each child newly enrolled during this time frame needs a unique identifier or “flag” so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary. Please follow the child based on the child’s age category at the time of enrollment (e.g., the child’s age at enrollment creates an age cohort that does not change over the 18 month time span). Please enter the data requested in the table below and the template will tabulate the percentages.

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in either title XXI or title XIX in December 2011, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in title XXI in December 2011, etc.)

Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2012		100%		100%		100%		100%		100%
Enrollment Status 6 months later										
2. Total number of children continuously enrolled in title XXI										
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
3.a. Total number of children enrolled in										

Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
4. Total number of children disenrolled from title XXI										
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										
Enrollment Status 12 months later										
5. Total number of children continuously enrolled in title XXI										
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
7. Total number of children disenrolled from title XXI										
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Enrollment Status 18 months later										
8. Total number of children continuously enrolled in title XXI										
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Definitions:

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2012” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who were continuously enrolled through July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who were continuously enrolled through August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who were continuously enrolled through September 2012

3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2012
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.

4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were disenrolled by July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were disenrolled by August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were disenrolled by September 2012
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.

5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through January 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through February 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through March 2013

6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and then re-enrolled in title XXI by January 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and then re-enrolled in title XXI by February 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and then re-enrolled in title XXI prior to March 2013
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.

7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were enrolled in January 2012 and were disenrolled by January 2013
 - + the number of children with birthdates after August 1995, who were enrolled in February 2012 and were disenrolled by February 2013
 - + the number of children with birthdates after September 1995, who were enrolled in March 2012 and were disenrolled by March 2013
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.

8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through September 2013

9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2013
 - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and disenrolled by July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and disenrolled by August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and disenrolled by September 2013

D. COST SHARING

1. Describe how the State tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?
 - a. Cost sharing is tracked by:
 - Enrollees (shoebox method)
If the State uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**
 - Health Plan(s)
 - State
 - Third Party Administrator
 - N/A (No cost sharing required)
 - Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased? **[7500]** Yes No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**
Providers do not need to be notified as the members cost sharing is part of the MMIS and it is the member's responsibility to file a claim.

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the State's CHIP program during the Federal fiscal year. **[500]**
12 families exceeded the 5 percent cap. No children were found to have exceeded the cap.

5. Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?
 Yes
 No

If so, what have you found? **[7500]**

6. Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?
 Yes
 No

If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

No

E. EMPLOYER SPONSORED INSURANCE PROGRAM (INCLUDING PREMIUM ASSISTANCE PROGRAM(S)) UNDER THE CHIP STATE PLAN OR A SECTION 1115 TITLE XXI DEMONSTRATION

1. Does your State offer an employer sponsored insurance program (including a premium assistance program) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.
 No, skip to Program Integrity subsection.

Children

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(3))
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(10))
 Section 1115 Demonstration (Title XXI)
 Premium Assistance Option (applicable to Medicaid expansion) children (1906)
 Premium Assistance Option (applicable to Medicaid expansion) children (1906A)

Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(10))
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(3))
 Section 1115 Demonstration (Title XXI)
 Premium Assistance option under the Medicaid State Plan (1906)
 Premium Assistance option under the Medicaid State Plan (1906A)
2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)
- Parents and Caretaker Relatives
 Childless Adults
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

The Employer Sponsored Insurance (ESI) is a benefit plan providing premium assistance to qualified children in families employed by an Oklahoma business with access to a private-market, employer sponsored insurance plan. With ESI the cost of health insurance premiums is shared by the employer, the children's family and OHCA. The state assures that Title XXI funds are used only for the coverage of children. By nature of the enrollment methods established by private, group employer sponsored insurance plans; children participate in subsidized ESI plans as a dependent child on their parents/guardians employment-based private coverage.

4. What benefit package does the ESI program use? **[7500]**

Insure Oklahoma qualifies insurance plans submitted by the carrier. Participating qualified health plans must offer, at a minimum, benefits that include:

(1) hospital services;

- (2) physician services;
- (3) clinical laboratory and radiology;
- (4) pharmacy;
- (5) office visits;
- (6) well baby/well child exams;
- (7) age appropriate immunizations as required by law; and
- (8) emergency services as required by law.

The health plan, if required, must be approved by the Oklahoma Insurance Department for participation in the Oklahoma market. All health plans must share in the cost of covered services and pharmacy products in addition to any negotiated discounts with network providers, pharmacies, or pharmaceutical manufacturers. If the health plan requires co-payments or deductibles, the co-payments or deductibles cannot exceed the limits described in this subsection.

- (1) An annual in-network out-of-pocket maximum cannot exceed

\$3,000 per individual, excluding separate pharmacy deductibles.

- (2) Office visits cannot require a co-payment exceeding \$50 per visit.
- (3) Annual in-network pharmacy deductibles cannot exceed \$500 per individual.

(c) Qualified health plans will provide an EOB, an expense summary, or required documentation for paid and/or denied claims subject to member co-insurance or member deductible calculations. The required documentation must contain, at a minimum, the:

- (1) provider's name;
- (2) patient's name;
- (3) date(s) of service;
- (4) code(s) and/or description(s) indicating the service(s) rendered, the amount(s) paid or the denied status of the claim(s);
- (5) reason code(s) and description(s) for any denied service(s);
- (6) amount due and/or paid from the patient or responsible party; and

(7) provider network status (in-network or out-of-network provider).

5. Are there any minimum coverage requirements for the benefit package?

- Yes
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes
 No

7. Are there any limits on cost sharing for children in your ESI program?

- Yes
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes No If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum [7500]? Subscriber premium payments are automatically tracked in MMIS (added to the household out of pocket panel). Members also submit claims with documentation for co-payments, co-insurance and deductible. These claims are added to the out of pocket panels. Once the amount exceeds 5% of household income, members are issued a warrant for the amount of those claims.

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

_____	Number of childless adults ever-enrolled during the reporting period
_____	Number of adults ever-enrolled during the reporting period
<u>557</u>	Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2011

Children	<u>315</u>
Parents	_____

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

The greatest problem during the reporting period has been obtaining certain documentation and identifying and placing controls on the various in-network percentages.

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

During the reporting period the program has grown substantially, and according to a survey conducted during the reporting period overall members are very satisfied with the program. Cost sharing requirements for Native American children were eliminated.

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

Due to budgetary constraints and the anticipated changes as a result of the Affordable Care Act we do not expect any changes to the program during the next fiscal year.

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

It is believed that parents enrolled in the ESI premium assistance program can now have their children on their health plan or if the children were on the health plan already the amount the parents had to contribute was reduced. This was not measured but will be included in the next CQI ESI annual survey.

16. Identify the total state expenditures for providing coverage under your ESI program during the reporting period. **[7500]**

\$54,157,093.33

17. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

	Children		Parent
State:	85		State:
Employer:	0		Employer:
Employee:	15		Employee:

18. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

Children	Low	298	High	350
Parents	Low		High	

19. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

0

20. Do you have a cost effectiveness test that you apply in determining whether an applicant can receive coverage (e.g., the state's share of a premium assistance payment must be less than or equal to the cost of covering the applicant under CHIP or Medicaid)?

- Yes
 No

21. Please provide the income levels of the children or families provided premium assistance.

	From		To
Income level of Children:	185 % of FPL[5]	200	% of FPL[5]
Income level of Parents:	185 % of FPL[5]	200	% of FPL[5]

22. Is there a required period of uninsurance before enrolling in premium assistance? **[500]**

- Yes
 No

If yes, what is the period of uninsurance? **[500]**

6months- with exceptions

23. Do you have a waiting list for your program?

- Yes
 No

24. Can you cap enrollment for your program?

- Yes
 No

25. What strategies has the State found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]** Employer renewal is automatic. An employer determined eligible for Insure Oklahoma is approved for up to a 12 month period. The eligibility period begins on the first day of the month following the date of approval. The eligibility period ends the last day of the 12th month. The eligibility period will renew automatically unless the employer's eligibility has been closed.

Enter any Narrative text below. **[7500]**

F. PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS (I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS))

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

- (1) prevention: Yes No
 (2) investigation: Yes No
 (3) referral of cases of fraud and abuse? Yes No

Please explain: **[7500]**

OHCA's MMIS has an extensive pre-payment edit system that checks all claims against specified criteria prior to payment which will result in either continued processing or denial of claims. The system compares the provider information against eligibility criteria to ensure that the provider was active at the time service

was given and has been approved for payment. Should the provider have a lapsed or terminated contract, the claim will be denied.

Preliminary and Full Investigations. Preliminary investigations are considered a necessary audit step prior to undertaking a full investigation. A preliminary investigation is initiated whenever a complaint or questionable practice is identified. For cases in which fraud and / or abuse is suspected, a referral is made to the appropriate agency based on the requirements of that entity. SURS Referral Forms are utilized to notify the Oklahoma Department of Human Services Office of Inspector General (OKDHS OIG). Notification in writing is submitted to MFCU when a provider is in question. (More information about MFCU can be found at PI-R11 on page 9.) Further investigation is initiated when preliminary results indicate a full investigation is warranted.

Investigation Procedures.

Providers. The purpose of the preliminary provider investigation is to determine whether further investigation is warranted and whether fraud and / or abuse is suspected.

The actual methods used in preliminary investigations vary depending on the situation. Techniques that may be used include queries, reports and data mining to identify unusual dollar amounts, units of service and / or billing patterns that may indicate that further investigation is necessary. Procedures applied depend on the issue, but often large scale data extracts are performed and analyzed, on-site reviews are performed, medical records are requested and reviewed, billing patterns analyzed, etc.

For the preliminary investigation of a single provider / member, a query is developed to review the billing or service utilization behaviors of the provider / member. If data indicates unusual or unexpected behavior, other actions are taken such as analysis of previous reviews and findings as well as claimed dollars and service utilization. This information is evaluated to determine whether a full investigation is warranted.

For preliminary investigations on populations such as provider types or provider billing practices, once the issue is isolated a universe of claims is created based on those that could be affected by the review. From this universe, the number of providers and claim dollars impacted by the errors are identified. For new areas of review, onsite reviews are conducted to validate the query results.

An example of a preliminary investigation would be the concern that a provider is up-coding. In this case, PI staff develops a query to report the span of CPT codes utilized by the provider. If the query results in only high level codes claimed, with no mid- or lower-level codes billed, further investigation takes place. Further confirmation would include review of the provider contract, the amounts claimed and paid, and other audits or reviews evaluating the provider's behaviors. This information is taken to the Case Selection Committee for discussion and identification of next steps.

If the potential of fraud or abuse is suspected at any point in this process, the case is immediately referred to MFCU. The MFCU is provided copies of SURS audit documentation, findings and appeals results. To ensure that MFCU is kept informed of current issues and considerations, courtesy copies of all PI reviews are forwarded to that agency at the time a case closes.

Do managed health care plans with which your program contracts have written plans? Please Explain: [500]

Do managed health care plans with which your program contracts have written plans?

Yes

No

Please Explain: [500]

2. For the reporting period, please report the

<u>145</u>	Number of fair hearing appeals of eligibility denials
<u>22</u>	Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

a. Provider Credentialing

0 Number of cases investigated

0 Number of cases referred to appropriate law enforcement officials

b. Provider Billing

1098 Number of cases investigated

23 Number of cases referred to appropriate law enforcement officials

c. Beneficiary Eligibility

6 Number of cases investigated

2 Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain : **[7500]**

Third party contractors are audited on an annual basis. The contractor supplies data and it is validated by the OHCA QA statistician and Project manager through random sampling.

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please explain: **[500]**

G. DENTAL BENEFITS – Reporting is required in 2010 CARTS

Is the State reporting this data in the 2011 CARTS?

Yes If yes, then please complete G1 and G2.

No If the State is not reporting data, please explain why.

Explain: **[7500]**

1. Information on Dental Care for CHIP Children (Include all delivery types, i.e. MCO, PCCM, FFS).

Data for this table are based from the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

a. Annual Dental Participation Table for CHIP Enrolled Children (Include children receiving full CHIP benefits and supplemental benefits) .

Please check which populations of CHIP children are included in the following table:

Medicaid Expansion

Separate CHIP

Both Medicaid Expansion and Separate CHIP

State: OK	Age Group
-----------	-----------

FFY: OK	Total	< 1	1-2*	3-5	6-9	10-14	15-18
Total Enrollees Receiving Any Dental Services ¹	47719	22	1379	5450	15432	16068	9368
Total Enrollees Receiving Preventive Dental Services ²	43324	12	1116	5062	14408	14840	7886
Total Enrollees Receiving Dental Treatment Services ³	24987	4	233	2101	7703	9154	5792

*Includes 12-month visit

¹**Total Eligibles Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (CDT codes D0100 - D9999).

²**Total Eligibles Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 -(CDT codes D1000 - D1999).

³**Total Eligibles Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (CDT codes D2000 - 09999).

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a protective sealant on at least one permanent molar tooth⁴? [7]

2533

⁴**Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in CHIP for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth regardless of whether the sealant was provided by a dentist or a non-dentist, as defined by HCPCS code D1351 (CDT code D1351).

2. Does the State provide supplemental dental coverage? Yes No

If yes, how many children are enrolled? [7]

What percent of the total amount of children have supplemental dental coverage? [5]

SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (Note: This reporting period =Federal Fiscal Year 2011. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

	2011	2012	2013
Benefit Costs			
Insurance payments			
Managed Care	107024084	111840168	115754574
Fee for Service	8247070	8618188	8919825
Total Benefit Costs	115271154	120458356	124674399
<i>(Offsetting beneficiary cost sharing payments)</i>			
Net Benefit Costs	\$ 115271154	\$ 120458356	\$ 124674399

Administration Costs

Personnel			
General Administration	3179490	3322567	3438857
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other (e.g., indirect costs)

--	-----------	-----------	-----------

2. What were the sources of non-Federal funding used for State match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]** The Insurance premiums will be matched with tobacco tax revenues collected and expended from a non-appropriated state revolving fund.

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough Federal CHIP funds for your program? **[1500]**

No

4. In the table below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

	2011		2012		2013	
	# of eligibles	\$ PMPM	# of eligibles	\$ PMPM	# of eligibles	\$ PMPM
Managed Care	66838	\$ 228	68342	\$ 233	69538	\$ 237
Fee for Service	9245	\$ 66	9453	\$ 67	9618	\$ 68

SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY CHIP)

Please reference and summarize attachments that are relevant to specific questions.

- If you do not have a Demonstration Waiver financed with CHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

		CHIP Non-HIFA Demonstration Eligibility				HIFA Waiver Demonstration Eligibility				
* Upper % of FPL are defined as Up to and Including										
Children	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Parents	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Childless Adults	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Pregnant Women	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *

- Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your CHIP demonstration during the reporting period.

_____ Number of **children** ever enrolled during the reporting period in the demonstration

_____ Number of **parents** ever enrolled during the reporting period in the demonstration

_____ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

_____ Number of **childless adults** ever enrolled during the reporting period in the demonstration
(*Only report for 1st Quarter of the FFY)

- What have you found about the impact of covering adults on enrollment, retention, and access to care of children? You are required to evaluate the effectiveness of your demonstration project, so report here on any progress made in this evaluation, specifically as it relates to enrollment, retention, and access to care for children. **[1000]**

- Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	2011	2012	2012	2014	2015

When was your budget last updated (please include month, day and year)? **[500]**

Please provide a description of any assumptions that are included in your calculations. **[7500]**

Other notes relevant to the budget: **[7500]**

SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

State Fiscal Year (SFY) 2011 had its share of ups and downs. The OHCA served an unprecedented 968,296 members over the year, representing a 5.5 percent increase in enrollment from 2010. Largely, the increases were due to Oklahoma's struggling economy as the full effect of the recession appeared to make considerable impact. This impact was seen in state budget revenues, unemployment, and family earnings.

Oklahoma's economy suffered during the recession, though it was not as deep or sudden as most other states. Non-farm employment dropped by a total of 80,000 jobs between its peak in June 2008 and low point in January 2010, according to Bureau of Labor Statistics reports. A vibrant energy sector, coupled with smaller-than-average bubble in the housing market, delayed Oklahoma's entry into recession until the second quarter of 2009. During SFY 2010, after oil and gas prices tumbled, Oklahoma unemployment benefit payments nearly doubled from the previous year, to \$1.146 billion. Jobless benefits in SFY 2010 paid out three times the amount of an average year over the past decade (\$353 million). Oklahoma's economic recovery began in April 2010, when unemployment began declining gradually from its peak of 7.3%. By October 2011, the jobless rate was 6.1% -- higher than pre-recession rate of 3.6%, but much lower than the national rate of 9.0%.

Oklahoma's state appropriations continued to fall short of expectations in SFY 2011. The State of Oklahoma anticipated a budget shortfall of \$725 million for SFY 2011. Provider rate cuts enacted in SFY 2009 were maintained for another year, and additional cuts appeared unavoidable until the very end of Oklahoma's legislative session in May 2011. (The state legislative session runs annually from February to May.) By the "skin of the teeth" and due to a gracious legislature the OHCA ended up with a 1 percent reduction while other agencies saw 5, 10 and upwards percent reductions in their state appropriations. Although the OHCA reduction was less than other state agencies, it did require changes to be made to comply with Oklahoma's balanced budget requirements. To balance, the OHCA was able to avoid additional provider rate cuts, instead cuts involved reducing administrative costs, increasing some co-pay amounts, changes to some benefits such as durable medical equipment, prescription, and diabetic supplies. In SFY 2010, the OHCA collectively trimmed more than \$38 million in state funds from administrative costs and the SoonerCare program. These cuts ultimately resulted in a total program reduction of more than \$148 million because of the corresponding reduction in federal Medicaid matching funds, including the loss of the additional federal stimulus package money.

State activity surrounding development and implementation of the Affordable Care Act (ACA) traveled a very rocky road during SFY 2011. Although Oklahoma was a successful grantee of an Early Innovator grant to establish a statewide health insurance exchange, adverse political will and controversy surrounding the constitutionality of the individual mandate resulted in Governor Mary Fallin rejecting the full award in April 2011. This action forced the OHCA to regroup and concentrate efforts on the minimum Medicaid requirements present within the ACA, moving forward with those elements required of the federal law. At this time the OHCA continues to prepare for requirements of the ACA, yet is limited in the thoroughness of planning due to many outstanding questions regarding Oklahoma's future path.

There is a high degree of uncertainty surrounding Oklahoma's plan to comply with part or all of the ACA, especially the exchange and coverage expansions. The OHCA was asked to be mindful of any efforts it undertook that received authority or funding in any way from the ACA. State leadership often asked of ACA involvement in many OHCA projects. The state scrutiny of all ACA endeavors added to the consideration of efforts to be pursued by the OHCA. In June 2011 an announcement was made that a legislative task force would convene to seek information regarding the options available to Oklahoma within the ACA, and to make recommendations as to what plan should be made moving forward. As of the date of this report the task force has met 5 times and final recommendations are to be drafted in December 2011 to inform the legislative process in 2012. It is unclear whether the recommendations will be made public in a document.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

State budget considerations have played a major role in SFY 2011. State revenues continue to fall short of expectations. The OHCA continues to operate in an environment that is keenly aware of limited resources. As a result many worthwhile initiatives are not pursued due to either lack of programmatic funding (e.g. early adoption of expansions) or lack of personnel resources (e.g. additional care management / ER diversion).

Planning and preparing for coverage expansion changes in 2014 also is proving to be a challenge. This challenge stems not only from the state's uncertainty, but also from uncertainty at the federal level. Oklahoma commented on all of the Medicaid-related proposed rules released in July 2011 and await the final rule or guidance regarding more detailed action. The essential health benefits plan information will also be very helpful to the OHCA as we determine possible flexibilities available. In addition, conversion to the Modified Adjusted Gross Income (MAGI) methodology is presenting many questions, both from policy and technical standpoints. In September of 2011 Oklahoma launched a state-of-the-art online enrollment system that utilizes a rules engine to return real-time eligibility decisions. Although this current technology will make conversion to MAGI much simpler than previously expected, there are still many, many considerations to be made in the design of realignment of categorical groups and population/expenditure reporting.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

The OHCA has continued to identify areas and projects worthwhile to pursue given political and fiscal constraints. It is often during these times of 'duress' when the most efficient innovative ideas are born. The following paragraphs describe a few of Oklahoma's accomplishments in SFY 2011.

Online Enrollment

In September 2010, OHCA launched online enrollment. This implementation included transferring responsibility to qualify and enroll more than 500,000 Oklahomans from the Oklahoma Department of Human Services (OKDHS) to OHCA. Prior to this innovation, qualified applicants were required to

visit an OKDHS county office in person, or fill out a paper application and mail it to OKDHS. Qualification and subsequent enrollment could take a month to complete.

Online enrollment provides many options for SoonerCare applicants. An online home application can be accessed from any computer that has Internet access, and an agency application can be accessed by partner agencies. The agency application is used by OKDHS, the Oklahoma State Department of Health (OSDH), Indian Health Services, and several Tribes to assist members in the enrollment process. With online enrollment, members receive the results of their application within minutes, instead of weeks.

The paper application still exists, but it is now received at OHCA, where it is scanned, data-entered, and processed for enrollment in a matter of days. With the option to receive an immediate response, the number of paper applications dropped sharply soon after the implementation of online enrollment.

The process uses a rules engine to determine qualification for the programs including SoonerCare, SoonerPlan and state-sponsored behavioral health services. This process ensures policy is applied uniformly for all Oklahomans. Verifications are accomplished through data exchanges with the Social Security Administration, the Oklahoma Employment Security Commission and OSDH, as well as other state and federal agencies. When applicants click "submit", and qualify to receive benefits, they receive real-time SoonerCare enrollment. Members receive a SoonerCare identification number, align with a medical home and can seek services immediately.

With less than a year of operation, OHCA processed 384,487 applications, and enrolled or re-enrolled 564,409 members through online enrollment. Approximately 30 percent of applications received originated at OKDHS, 19 percent from other partner agencies using the agency application and 41 percent using the home application. The remaining 10 percent used the paper process.

Outreach Activities

To reach the approximately 60,000 Oklahoma children uninsured but qualified for SoonerCare, OHCA coordinated an outreach effort called SoonerEnroll. SoonerEnroll was funded by a CHIPRA Outreach and Enrollment Grant and has two primary goals: 1) enroll children that would be qualified for SoonerCare but are not currently enrolled; and, 2) improve the rate of successful and timely recertification of children in SoonerCare. OHCA is committed to providing quality health care for all of Oklahoma's children, and SoonerEnroll is instrumental in reaching that goal.

SoonerEnroll uses a number of state and community-level strategies to increase enrollment and retention of children in SoonerCare. Four regional coordinators and a number of temporary community outreach workers provide training and technical assistance to more than 500 community partners and work closely with them in the development, implementation and evaluation of action plans to meet the needs of local communities. An important outcome of SoonerEnroll has been the creation of a sustainable, statewide infrastructure for outreach and enrollment efforts beyond the scope of the CHIPRA grant.

The Oklahoma Health Care Authority also has contracted with the University of Oklahoma School of Social Work to conduct focus groups and administer surveys concerning the challenges and barriers associated with enrollment in SoonerCare. The results will be used to develop and implement future outreach strategies. A re-enrollment pilot also was launched allowing members in pilot counties to renew their SoonerCare membership by phone. The grant continues through September 2011.

Electronic Health Records Incentive Payment

The Centers for Medicare & Medicaid Services (CMS) has implemented, through provisions of the American Recovery and Reinvestment Act of 2009 (ARRA), incentive payments to eligible professionals (EP) and eligible hospitals (EH). Eligible hospitals include critical access hospitals, cancer hospitals and children's hospitals participating in Medicare and Medicaid programs that are meaningful users of certified Electronic Health Records (EHR) technology. The incentive payments are not a reimbursement, but are intended to encourage Oklahoma EPs and EHs to adopt, implement or upgrade certified EHR technology and use it in a meaningful manner.

Oklahoma was the first state in the nation to approve eligible professionals for payment through the Oklahoma EHR Incentive Program. As of June 2011, more than 600 medical professionals had received a total of nearly \$13 million in incentive payments, and 33 hospitals had received about \$23 million.

SoonerCare Health Care Homes

In April 2011, the Oklahoma Health Care Authority partnered with the Department of Mental Health and Substance Abuse Services (DMHSAS) to take advantage of a unique opportunity to develop Health Homes. A health home is a care delivery system that further expounds on the principals of Medical Home by allowing states to take a holistic person centered approach to coordinating both medical and behavior health needs for an individual. Oklahoma Health Care Homes will service SoonerCare members with serious mental illnesses and emotional disturbances for both adults and children. The immediate goals are for SoonerCare members to receive optimal, complete, and comprehensive behavioral and medical care in the most timely and cost efficient manner possible. Long term goals for Health Homes are to reduce disparities, cost, and improve overall quality of life. There will be physician lead teams of health care professionals that provide the integrated health care, and these teams will share the same information and coordinate treatment based each individual's needs. As there is no time limitation on implementation, planning is underway between OHCA and DMHSAS to determine the best way to transform Community Mental Health Centers into Health Care Homes, starting with two urban facilities with eventual implementation statewide to fourteen locations.

Care Coordination for Dual Eligibles

In April 2011, the Department of Health and Human Services announced several initiatives that offer states more flexibility to adopt innovative practices in order to provide better and more coordinated care for Medicare and Medicaid enrollees who are "dually eligible" under both of these programs. Oklahoma is one of fifteen states that has been awarded a contract to support the design of projects that aim to improve the coordination of care for people with Medicare and Medicaid coverage.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

As mentioned previously, the OHCA plans to modify eligibility and enrollment processes to comply with the requirements of the ACA, including but not limited to changes to categorical groups and

CHIP Annual Report Template – FFY 2011 170

MAGI methods. During the next fiscal year planning and development for these changes will occur. The implementation is not anticipated until October 2013, to coincide with the effective date of ACA requirements in 2014. These changes are being developed for both Title 19 and CHIP populations. Additionally, the maintenance of effort requirement for children through 2019 will require at least two changes to categories served today.

One change is for children served through Insure Oklahoma, which is the premium assistance program currently in operation, where coverage for children is authorized through a stand alone CHIP state plan. Due to the coverage expansions, premium tax credits, and exchange infrastructure that will be created in 2014, the Insure Oklahoma program as we know it today will likely change dramatically. Federal matching dollars for the premium subsidies are anticipated to be replaced with federal premium tax credits, and the safety net coverage offered through the state-run individual plan may likely become the only option available. The OHCA is considering the possible pros and cons of either (1) maintaining the individual plan within Insure Oklahoma for children; or (2) realigning children who are qualified for Insure Oklahoma today with the larger SoonerCare population. Regardless of the path chosen, Oklahoma is making preparations to ensure compliance with the MOE provisions and maintenance of coverage for all children who qualify today.

The second change is for children served through the unborn child program, also under stand alone CHIP authority. The MOE provision will apply to unborn children today. The OHCA is looking into the possibility of moving the categorical group of adult pregnant women not subject to the MOE into the unborn child category. By doing so the OHCA will continue to serve the unborn child, meet minimum MOE requirements, and possibly simplify categorical group reporting.
