

FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Act provides that the State and Territories *must assess the operation of the State child health plan in each Federal fiscal year, and report to the Secretary, by January 1 following the end of the Federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children. The State is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The State is also out of compliance if any section of this report relevant to the State's program is incomplete.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- Recognize the ***diversity*** of State approaches to CHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

The CHIP Annual Report Template System (CARTs) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: 1115 Demonstration Waivers (Financed by CHIP)
- Section VI: Program Challenges and Accomplishments

* - When "State" is referenced throughout this template, "State" is defined as either a state or a territory.

**FRAMEWORK FOR THE ANNUAL REPORT OF
THE CHILDREN'S HEALTH INSURANCE PLANS
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.

State/Territory: WA
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: _____
Kevin E. Cornell

CHIP Program Name(s): All, Washington

CHIP Program Type:

- CHIP Medicaid Expansion Only
 Separate Child Health Program Only
 Combination of the above

Reporting Period: 2011 Note: Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011.

Contact Person/Title: Kevin Cornell/CHIP program manager

Address: MS 45534

805 Plum St. SE

City: Olympia State: WA Zip: 98504-5534

Phone: (360)725-1423 Fax: (360)664-0910

Email: kevin.cornell@hca.wa.gov

Submission Date: 2/29/2012

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

SECTION I: SNAPSHOT OF CHIP PROGRAM AND CHANGES

- 1) To provide a summary at-a-glance of your CHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different CHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table. Please note that the numbers in brackets, e.g., [500] are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

Comments on Responses in Table:

- 2. Is there an assets test for children in your Medicaid program? Yes No N/A
- 3. Is it different from the assets test in your separate child health program? Yes No N/A
- 4. Are there income disregards for your Medicaid program? Yes No N/A

5. Are they different from the income disregards in your separate child health program? Yes No N/A
6. Is a joint application (i.e., the same, single application) used for your Medicaid and separate child health program? Yes No N/A
7. If you have a joint application, is the application sufficient to determine eligibility for both Medicaid and CHIP? Yes No N/A

8. Indicate what documentation is required at initial application for

SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

This section consists of three subsections that gather information on the initial core set of children's health care quality measures for the CHIP and/or Medicaid program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the initial core set of measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

SECTION IIA: REPORTING OF THE INITIAL CORE SET OF CHILDREN'S HEALTH CORE QUALITY MEASURES

Section 401(a) of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) (Pub.L. 111-3) required the Secretary of the Department of Health and Human Services to identify an initial core set of child health care quality measures for voluntary use by State programs administered under titles XIX and XXI, health insurance issuers and managed care entities that enter into contract with such programs, and providers of items and services under such programs. Additionally, Section 401(a)(4) required the development of a standardized reporting format for states that volunteer to report on the initial core set of measures. This section of CARTS will be used for standardized reporting on the initial core set of measures.

States that volunteer are required to report using the standardized methodologies and specifications and report on the populations to which the measures are applied. Below are the measure stewards and general description of the measures. Please reference the Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures for detailed information for standardized measure reporting.

The Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures can be found:

<http://www.cms.gov/MedicaidCHIPQualPrac/Downloads/CHIPRACoreSetTechManual.pdf>

The reporting of the Initial Care Set of Measures 1-23 is voluntary. Title XXI programs are required to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.

	Measure	Measure Steward	Description	Reporting
1	Prenatal and Postpartum Care: Timeliness of Prenatal Care	NCQA/HEDIS	The percentage of deliveries of live births between November 6 of the year prior to the measurement year and November 5 of the measurement year that received a prenatal care visit in the first trimester or within 42 days of enrollment	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
2	Frequency of Ongoing Prenatal Care	NCQA/HEDIS	Percentage of deliveries between November 6 of the year prior to the measurement year and November 5 of the measurement year that received the following number of visits: < 21 percent of expected visits 21 percent – 40 percent of expected visits 41 percent – 60 percent of expected visits 61 percent – 80 percent of expected visits ≥ 81 percent of expected visits	Measure is voluntary.
3	Percentage of live births weighing less than 2,500 grams	CDC	Percentage of resident live births that weighed less than 2,500 grams in the State reporting period	Measure is voluntary.
4	Cesarean Rate for Nulliparous Singleton Vertex	California Maternal Care Collaborative	Percentage of women who had a cesarean section (C-section) among women with first live singleton births (also known as nulliparous term singleton vertex [NTSV] births) at 37 weeks of gestation or later	Measure is voluntary.
5	Childhood Immunization Status	NCQA/HEDIS	Percentage of children who turned 2 years old during the measurement year who had specific vaccines by their second birthday.	Measure is voluntary.
6	Immunizations for Adolescents	NCQA/HEDIS	Percentage of adolescents who turned 13 years old during the measurement year who had specific vaccines by their thirteenth birthday.	Measure is voluntary.
7	Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents: BMI Assessment for Children/Adolescents	NCQA/HEDIS	Percentage of children, 3 through 17 years of age, whose weight is classified based on BMI percentile for age and gender.	Measure is voluntary.
8	Developmental Screening in the First Three Years of Life	Child and Adolescent Health Measurement Initiative and NCQA	Percentage of children screened for risk development, behavioral, and social delays using a standardized, screening tool in the first, second, and third year of life	Measure is voluntary.
9	Chlamydia Screening	NCQA/HEDIS	Percentage of women 16- 20 who were identified as sexually active who had at least one test for Chlamydia during the measurement year	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
10	Well Child Visits in the First 15 Months of Life	NCQA/HEDIS	Percentage of children who had zero, one, two, three, four, five, and six or more well child visits with a primary care practitioner during their first 15 months of life	Measure is voluntary.
11	Well Child Visits in the 3 rd , 4 th , 5 th , and 6 th Years of Life	NCQA/HEDIS	Percentage of children age 3 to 6 years old who had one or more well-child visits with a primary care practitioner during the measurement year.	Measure is voluntary.
12	Adolescent Well-Care Visits	NCQA/HEDIS	Percentage of adolescents age 12 through 21 years who had at least one comprehensive well-care visit with a primary care practitioner or an OB/GYN practitioner during the measurement year.	Measure is voluntary.
13	Percentage of Eligibles who Received Preventive Dental Services	CMS	Percentage of eligible children ages 1-20 who received preventive dental services	Measure is voluntary.
14	Children and Adolescents' Access to Primary Care Practitioners	NCQA/HEDIS	Percentage of children and adolescents 12 months – 19 years of age who had a visit with a primary care practitioner (PCP). Four separate percentages are reported: <ul style="list-style-type: none"> • Children 12- 24 months and 25 months – 6 years who had a visit with a PCP during the measurement year • Children 7 – 11 years and adolescents 12 – 19 years who had a visit with a PCP during the measurement year or the year prior to the measurement year 	Measure is voluntary.
15	Appropriate Testing for Children with Pharyngitis	NCQA/HEDIS	Percentage of children who were diagnosed with pharyngitis, dispensed an antibiotic and who received a group A streptococcus test for the episode	Measure is voluntary.
16	Otitis Media with Effusion – avoidance of inappropriate use of systemic antimicrobials in children – ages 2-12	American Medical Association/ Physician Consortium for Performance Improvement	Percentage of children ages 2 months through 12 years with a diagnosis of otitis media with effusion (OME) who were not prescribed systemic antimicrobials	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
17	Percentage of Eligibles who Received Dental Treatment Services	CMS	Percentage of eligible children Ages 1-20 who received dental treatment services	Measure is voluntary.
18	Ambulatory Care: Emergency Department Visits	NCQA/HEDIS	The number of emergency department visits per child/adolescent per year as a function of all children and adolescents enrolled and eligible during the measurement year	Measure is voluntary.
19	Pediatric central-line associated blood stream infections – NICU and PICU	CDC	Rate of central line-associated blood stream infections (CLABSI) in the pediatric and neonatal intensive care units during periods selected for surveillance	Measure is voluntary.
20	Annual percentage of asthma patients (2-20 yo) with 1 or more asthma-related emergency room visits	Alabama Medicaid	Percentage of children 2-20 years of age diagnosed with asthma during the measurement year with one or more asthma-related ER visits	Measure is voluntary.
21	Follow-Up Care for Children Prescribed Attention-Deficit Hyperactivity Disorder (ADHD) Medication	NCQA/HEDIS	Percentage of children newly prescribed ADHD medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days from the time when the first ADHD medication was dispensed. Two rates are reported: one for the initiation phase and one for the continuation and maintenance phase	Measure is voluntary.
22	Annual Pediatric hemoglobin A1C testing	NCQA	Percentage of children with diabetes and an HbA1c test during the measurement year.	Measure is voluntary.
23	Follow-up after hospitalization for mental illness	NCQA/HEDIS	Percentage of discharges for children 6 years of age and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter or partial hospitalization with a mental health practitioner	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
24	Consumer Assessment Of Healthcare Providers And Systems (CAHPS®) Health Plan Survey 4.0H (Child version including Medicaid and Children with Chronic Conditions supplemental items)	NCQA/HEDIS	Survey on parents' experience with their child's care	<p>Reporting Required in 2013</p> <p>Title XXI programs are <u>required</u>¹ to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.</p> <p>If States are already working with the Agency for Healthcare Research and Quality (AHRQ) to report CAHPS, they can continue doing so. We ask that States indicate in CARTS that they have submitted CAHPS data to AHRQ and using the CARTS attachment facility, provide a copy of the CAHPS results to CMS (do not submit raw data on CAHPS to CMS).</p>

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second columns, data from the previous to years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS; enter data in these columns only if changes must be made. If you previously reported no data for either of those years, but you now have recent data for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011). Additional instructions for completing each row of the table are provided below.

If Data Not Reported, Please Explain Why:

Beginning in 2011, the CARTS application will require States to provide information on why they chose not to report a measure(s) in Section IIA. The CARTS user will be prompted to provide this information for each measure during data entry. If the CARTS User skips these questions during the data entry process, he/she will be prompted to respond to them before being able to certify the Annual Report.

If you cannot provide a specific measure, please check the box that applies to your State for each measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.

¹ P.L. 111-3, §402(a)(2)(e)

- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the denominator size for a particular measure is less than 30. If the denominator size is less than 30, your State is not required to report a rate on the measure. However, please indicate the exact denominator size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

Although the Initial Core Set of Measures is voluntarily reported, if the State is not reporting data on a specific measure, it is important to complete the reason why the State is not reporting the measure. It is important for CMS to understand why each State and why all States as a group may not be reporting on specific measures. Your selection of a reason for not reporting and/or provision of an “other” reason for not reporting will assist CMS in that understanding.

Status of Data Reported:

Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for the current CARTS reporting period.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for the current CARTS reporting period.
- Same data as reported in a previous year's annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year's annual report you previously reported the data.

Measurement Specification:

For each measure, please indicate whether the measure is based on HEDIS® technical specifications, the specifications developed by other measure stewards listed in the Technical Specifications and Resource Manual (e.g. CMS, CDC, AMA/PCPI), or “other” measurement specifications. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed. States should use the technical specifications outlined in the Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures.

HEDIS® Version:

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user selects the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

Data Source:

For each measure, please indicate the source of data or methodology used to calculate the measure – administrative data (such as claims and encounters) (specify the kind of administrative data used); hybrid methods (combining administrative data and medical records) (specify how the two were used to create the rate); survey data (specify the survey used); or other source (specify the other source).

Definition of Population included in the Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure.

Denominator: Please indicate the definition of the population included in the denominator for each measure by checking one box to indicate whether the data are for the CHIP population only, the Medicaid population only, or include both CHIP and Medicaid (Title XIX) children combined.

If the denominator reported is not fully representative of the population defined above (the CHIP population only, the Medicaid population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator, including those who are excluded from the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

Deviation from Measure Technical Specification

If the data provided for a measure deviates from the measure technical specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other (please describe in detail).

When one or more of the types are selected, States are required to provide an explanation.

Year of Data: not available for the 2011 CARTS reporting period.

Please report the year of data for each measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Date Range: available for 2011 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year that corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year that corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Initial Core Set Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators for each measure (or component). The template provides two sections for entering the data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

Note: 2011 CARTS will calculate the rate when you enter the numerator and denominator.

For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator (If you typically calculate separate rates for each health plan or delivery system, report the aggregate state-level rate for each measure [or component]. The preferred method is to calculate a single state-level “weighted rate” based on the distribution of the eligible population included in each separate rate.) Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.

Explanation of Progress:

The intent of this section is to allow your State to demonstrate how you are using the measures. Please highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

CHIPRA Quality Demonstration States have the option of reporting State developed quality measures through CARTS. Instructions may be found on page 25 in the web-based template and after core measure 24 on the Word template.

EQRO Requirement: States with CHIP managed care that have existing external quality review organization (EQRO) reports are required to submit EQRO reports as an attachment.

Is the State submitting an EQRO report as an attachment to the 2011 CARTS?

Yes No

If yes, please provide a further description of the attachment. [7500]

An electronic copy is available on the Web at: <http://www.acumentra.org/waeqro/downloads/reports-2011/2011-EQR-Annual-Report-FINAL-020612.pdf>

An appendices to the report is available at:

<http://www.acumentra.org/waeqro/downloads/reports-2011/2011-EQR-Annual-Report-AppABCD-FINAL-011312.pdf>

If the State is not submitting an EQRO report as an attachment to the 2011 CARTS, please explain. [7500]

<p>Explanation of Progress:</p> <p>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? We had a statistically significant reduction in performance in the Combo2 measure.</p> <p>What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? Beginning in July, 2012 we are building a quality adjuster in our managed care contracts. We envision a combination immunization measure will be included in the quality adjuster.</p> <p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2012: Annual Performance Objective for FFY 2012: 1% increase in immunization rates.</p> <p>Annual Performance Objective for FFY 2013: Annual Performance Objective for FFY 2013: 1% increase in immunization rates</p> <p>Annual Performance Objective for FFY 2014: Annual Performance Objective for FFY 2014: 1% increase in immunization rates.</p> <p><i>Explain how these objectives were set:</i></p>

Explanation of Progress:

How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? Target increase of 1% in the % of children receiving 6 or more well-child visits was met.

What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? Managed care organizations are required to report HEDIS well-child performance measures annually, and instructed to produce the measure using hybrid-measures. MCOs are also required to conduct a performance improvement project if any well-child rates are below 65%. MCOs have implemented a number of interventions to improve performance including: incentives, performance feedback to clinics, education and outreach.

Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.

Annual Performance Objective for FFY 2012: Improve the rate of infants receiving 6 or more well-child care visits by 1%.

Annual Performance Objective for FFY 2013: Improve the rate of infants receiving 6 or more well-child care visits by 1%.

Annual Performance Objective for FFY 2014: Improve the rate of infants receiving 6 or more well-child care visits by 1%.

Explain how these objectives were set: Conservative estimate based on historical patterns of year to year improvement.

Other Comments on Measure:

Reporting of State-specific measures:

In addition to reporting the CHIPRA core set quality measures, if your State has developed State-specific quality measures as part of the CHIPRA Quality Demonstration Grant project, the State may report that data in CARTS. The State may attach documents/data regarding the state-specific measures by using the CARTS attachment facility. Please provide a brief description of the attachment in the space provided when submitting the attachment.

Is the State attaching any state-specific quality measures as a CARTS attachment?

Yes No

SECTION IIB: ENROLLMENT AND UNINSURED DATA

- The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your State's 4th quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2010	FFY 2011	Percent change FFY 2010-2011
CHIP Medicaid Expansion Program	0	0	
Separate Child Health Program	35894	43364	20.81

- Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**

We have better data collection now that ProviderOne data has matured and stabilized. The continuing poor economy has also resulted in an increase in CHIP eligibles in 2011, though enrollment has leveled off somewhat in the second half of the year.

- The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2009-2010. Significant changes are denoted with an asterisk (*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. CARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2011 Annual Report Template.

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number	Std. Error	Rate	Std. Error
1996 - 1998	83	22.2	5.2	1.4
1998 - 2000	81	22.5	5.1	1.4
2000 - 2002	88	17.1	5.5	1.0
2002 - 2004	68	15.0	4.3	.9
2003 - 2005	72	14.9	4.5	.9
2004 - 2006	58	14.0	3.6	.8

2005 - 2007	61	14.0	3.8	.8
2006 - 2008	54	13.0	3.4	.8
2007 - 2009	58	14.0	3.5	.8
2008 - 2010	60	8.0	3.6	.5
Percent change 1996-1998 vs. 2008-2010	-27.7%	NA	-30.8%	NA

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**

Washington has engaged in a very aggressive "Apple Health for Kids" outreach campaign. We also have an extensive network of community based organizations that actively assist our clients with applications and renewals. Finally, we have policies in place that foster connectivity to medical coverage by certifying coverage for twelve months and allowing continuous eligibility.

- B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates. **[7500]**

The State of Washington believes the CPS data is less accurate because of its small sampling size and lack of adjustment for the Medicaid undercount. Our state has opted to use the bi-annual Washington State Population Survey (WSPS) as a measuring tool for estimating the number and rate of uninsurance for children in our state. The WSPS provides more accurate data than the CPS because the WSPS data is based on a much larger sampling of our state's population.

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

Yes (please report your data in the table below)

No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	Washington State Population Survey
Reporting period (2 or more points in time)	2010, 2080
Methodology	The Washington State Population Survey is based on a biennial telephone survey of Washington residents. Telephone interviews were attempted on 111,362 households. Completed survey results were obtained on 7,715 households. More detailed information on methodology and sample disposition and response rates may be obtained at: http://www.ofm.wa.gov/sps/default.asp
Population (Please include ages	Ages – 0 through 18 Income – 0 to 200% FPL

and income levels)	
Sample sizes	The 2008 sample size was 8162. The 2010 sample size was 7,715
Number and/or rate for two or more points in time	2010 - 32,656 uninsured (4.4%); 2008 - 47,851 uninsured (7.3%)
Statistical significance of results	The 2.9% decrease in uninsured children is supported by corresponding increases in Medicaid enrollment.

A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children. **[7500]**

The State of Washington chose to use the WSPS data because it offered a larger sampling size providing a more comprehensive measurement; making it statistically more reliable than the CPS data.

B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.) **[7500]**

2008 data 0-200%FPL uncovered 7.26%; standard error - 1.11%; 95% confidence limit 5.04%-9.48%.

2010 data 0-200%FPL uncovered 4.4%; standard error - 1.35%; 95% confidence limit 6.34%-11.63%.

For a more detailed explanation of confidence intervals see <http://www.doh.wa.gov/data/guidelines/ConfIntguide.htm>.

C. What are the limitations of the data or estimation methodology? **[7500]**

The data is an estimate based on a telephone survey, so only households with telephones are surveyed.

D. How does your State use this alternate data source in CHIP program planning? **[7500]**

This data source allows us to monitor trends in insurance coverage (private vs. public) as well as identify if uninsurance rates are increasing. WSPS also allows us to pull data on specific age groups and household demographic characteristics which may provide direction to how we target outreach efforts.

4. How many children do you estimate have been enrolled in Medicaid as a result of CHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information **[7500]**

We do not have distinct figures for Medicaid enrollees as a result of CHIP outreach activities. From January, 2011 through July, 2011 2,779 children were enrolled in Medicaid and CHIP as a result of our application agent outreach.

SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP State Plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS. If you previously reported data in the 2 previous years reports (2009 and/or 2010) and you want to update/change the data please enter that data. If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011).

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not report elsewhere in Section II.

Additional instructions for completing each row of the table are provided below.

Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be: "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."**

Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.

- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

Status of Data Reported:

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2010.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for FFY 2011.
- Same data as reported in a previous year’s annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

HEDIS® Version:

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user select the HEDIS® measurement specification.

“Other” measurement specification explanation:

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure

For measures related to increasing access to care and use of preventative care, please check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.

- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

Deviations from Measure

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected..

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other.

When one or more of the types are selected, states are required to provide an explanation.

Year of Data: not available for the 2011 CARTS reporting period.

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

Date Range: available for 2011 CARTS reporting period.

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

Note: CARTS will calculate the rate when you enter the numerator and denominator.

For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator (If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure [or component]. The preferred method is to calculate a “weighted rate”

by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator.) **Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.**

Explanation of Progress:

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. Any quality improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality improvement activity is a state-wide initiative to inform individual families directly of their children's immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions)

FFY 2009	FFY 2010	FFY 2011
<p>Goal #1 (Describe) To reduce the percentage of uninsured children between 200% and 300% FPL by 1% bi-annually.</p>	<p>Goal #1 (Describe) To reduce the percentage of uninsured children between 200% and 300% FPL by 1% bi-annually.</p>	<p>Goal #1 (Describe) To reduce the percentage of uninsured children between 200% and 300% FPL by 1% bi-annually.</p>
<p>Type of Goal: <input checked="" type="checkbox"/> New/revised. <i>Explain:</i> <input type="checkbox"/> Continuing. <input type="checkbox"/> Discontinued. <i>Explain:</i> The target population has been increased to 300%FPL to incorporate the new upper income limit for the CHIP program. Because the data source used for measurement is only available every other year, the target has been changed to a bi-annual goal.</p>	<p>Type of Goal: <input type="checkbox"/> New/revised. <i>Explain:</i> <input checked="" type="checkbox"/> Continuing. <input type="checkbox"/> Discontinued. <i>Explain:</i> The target population has been increased to 300%FPL to incorporate the increased upper income limit for the CHIP program that went into effect in January, 2009. Because the data source used for measurement is only available every other year, the target has been changed to a bi-annual goal.</p>	<p>Type of Goal: <input type="checkbox"/> New/revised. <i>Explain:</i> <input checked="" type="checkbox"/> Continuing. <input type="checkbox"/> Discontinued. <i>Explain:</i></p>

FFY 2009	FFY 2010	FFY 2011
<p>Numerator: 12346 Denominator: 266996 Rate: 4.6</p> <p>Additional notes on measure:</p>	<p>Numerator: 12105 Denominator: 246085 Rate: 4.9</p> <p>Additional notes on measure: WSPS is conducted biannually.</p>	<p>Numerator: 12105 Denominator: 246085 Rate: 4.9</p> <p>Additional notes on measure: WSPS is conducted every other year. 2009 survey results reported in 2010. 2011 survey results reported in 2012. Updated data for this measure will not be available until next year.</p>
<p>Explanation of Progress:</p> <p>How did your performance in 2009 compare with the Annual Performance Objective documented in your 2008 Annual Report? The data for 2009 is based on the 2008 WSPS. The only change was an increase in the upper income limit being defined in the goal to 300%FPL. Based on that change the rate of uninsured children dropped from 4.7% to 4.6% - a statistically insignificant change. Because the survey is only conducted every other year performance objectives will not be defined for the odd years.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2010 compare with the Annual Performance Objective documented in your 2009 Annual Report? There was no statistically significant change from 2009. We did not achieve a 1% reduction in the percentage of uninsured u.s. citizen children as set in our target.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? We conducted outreach and paid application agents to identify and successfully enroll CHIP eligibles. This will continue as funding is available. We also provided a list of clients due for review to our contracted managed care plans so that they may assist recipients with completing the annual review and avoiding "churn" (dropping off eligibility and subsequently reapplying and requalifying).</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? No change. New data is not available to report.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? We continue to partner with community based organizations and managed care plans to assist clients with application and renewal completion.</p>
<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2010: Reduce the number of uninsured children in the 200%-300% income bracket by 1% [to 3.6%].</p> <p>Annual Performance Objective for FFY 2011: N/A</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2011: N/A - data will not be available for 2011 that is different from 2010 since the measurement is based on the biannual WSPS.</p> <p>Annual Performance Objective for FFY 2012: Reduce the number of uninsured children in the 200%-300% income bracket by 1% [to 3.9%].</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2012: Reduce the number of uninsured children in the 200%-300% income bracket by 1% [to 3.9%].</p> <p>Annual Performance Objective for FFY 2013: N/A - data will not be available for 2011 that is different from 2010 since the measurement is based on the biannual WSPS.</p>

FFY 2009	FFY 2010	FFY 2011
<p>Annual Performance Objective for FFY 2012: Reduce the number of uninsured children in the 200%-300% income bracket by 1% [to 2.6%].</p> <p><i>Explain how these objectives were set:</i> Objective set based on recent trends in enrollment, and ongoing outreach efforts under Apple Health for Kids.</p>	<p>Annual Performance Objective for FFY 2013: N/A - data will not be available for 2011 that is different from 2010 since the measurement is based on the biannual WSPS.</p> <p><i>Explain how these objectives were set:</i> Objective set based on recent trends in enrollment.</p>	<p>Annual Performance Objective for FFY 2014: Reduce the number of uninsured children in the 200%-300% income bracket by 1% [to 2.9%].</p> <p><i>Explain how these objectives were set:</i> Objective set based on recent trends in enrollment.</p>
<p>Other Comments on Measure: The next WSPS will be conducted in 2010.</p>	<p>Other Comments on Measure: The ongoing recession has resulted in more children losing private/employer based healthcare coverage. While enrollment in the CHIP program is up significantly, the % of children who are uninsured remains the about same because of lost coverage in the private/employer based insurance market.</p>	<p>Other Comments on Measure: The ongoing recession has resulted in more children losing private/employer based healthcare coverage. While enrollment in the CHIP program is up significantly, the % of children who are uninsured remains the about same because of lost coverage in the private/employer based insurance market.</p>

Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions 2 and 3) (Continued)

FFY 2009	FFY 2010	FFY 2011
<p>Goal #2 (Describe) N/A</p>	<p>Goal #2 (Describe) To increase the percentage of US citizen children in households below 200% of the FPL who have health insurance coverage to 95% or above.</p>	<p>Goal #2 (Describe) To increase the percentage of US citizen children in households below 200% of the FPL who have health insurance coverage to 95% or above.</p>

By measuring this percentage we can determine the penetration rate of our outreach activities to enroll medicaid eligibles and estimate how many children remain uncovered but who are potentially eligible for Medicaid.</p>	<p>Performance Measurement Data: Described what is being measured: The percentage of US citizen children below 200%FPL who have health insurance coverage. By measuring this percentage we can determine the penetration rate of our outreach activities to enroll medicaid eligibles and estimate how many children remain uncovered but who are potentially eligible for Medicaid.</p>

FFY 2009	FFY 2010	FFY 2011
	Numerator: 668421 Denominator: 697171 Rate: 95.9 Additional notes on measure: Measurement data is only available biannually based on WSPS.	Numerator: 668421 Denominator: 697171 Rate: 95.9 Additional notes on measure: No change. Data is the same as last year. WSPS is conducted every other year. Updated data will be available for 2012 annual report.
<p>Explanation of Progress:</p> <p>How did your performance in 2009 compare with the Annual Performance Objective documented in your 2008 Annual Report?</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2010 compare with the Annual Performance Objective documented in your 2009 Annual Report? We exceeded our 1% target. In 2008 92.8% of U.S.citizen children had coverage. In 2010 95.9% of U.S. citizen children had coverage, representing a 3% improvement in coverage.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? 12 mo. continuous eligibility. Availability of online application with electronic signature. Using managed care organizations to assist clients with renewal process. Using application agents to identify and enroll potentially eligible clients. When the FPL increases each April, enrollees in the CHIP program whose income falls below the new FPL limit for Medicaid (200%) are automatically enrolled in Medicaid. They do not need to reapply.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? No change. Updated data will not be available until 2012.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</p>

<p>Definition of Population Included in the Measure: Definition of denominator: Definition of numerator:</p>	<p>Definition of Population Included in the Measure: Definition of denominator: The number of children in households whose income is between 200-300%FPL who are enrolled in CHIP for 1 month or longer in a FFY. This number excludes those children who receive CHIP under the unborn provision of the CHIP program. Definition of numerator: na</p>	<p>Definition of Population Included in the Measure: Definition of denominator: The number of children, ages 0-18, in households whose income is above 200%FPL, but not above 300%FPL, who are enrolled in CHIP for 1 month or longer in the FFY. This number excludes those children who receive CHIP under the unborn provision of the CHIP program. Definition of numerator: Numerator is not applicable since this performance measure is based on a count of enrollees and not a percentage increase.</p>
<p>Year of Data:</p>	<p>Year of Data: 2010</p>	<p>Date Range: From: (mm/yyyy) 10/2011 To: (mm/yyyy) 09/2012</p>

FFY 2009	FFY 2010	FFY 2011
<p>Performance Measurement Data: Described what is being measured: The number of children in households whose income is between 200-300%FPL who are enrolled in CHIP for 1 month or longer in a FFY. This number excludes children who receive CHIP under the unborn provision of the CHIP program.</p> <p>Numerator: Denominator: Rate: 19231</p> <p>Additional notes on measure:</p>	<p>Performance Measurement Data: Described what is being measured:</p> <p>Numerator: Denominator: 26617 Rate: 0</p> <p>Additional notes on measure: The number of children enrolled in SCHIP in 2009 was 19,231. The number of children enrolled in SCHIP in 2010 was 26,617.</p>	<p>Performance Measurement Data: Described what is being measured: Increases in CHIP enrollment</p> <p>Numerator: 0 Denominator: 29225 Rate:</p> <p>Additional notes on measure:</p>
<p>Explanation of Progress:</p> <p>How did your performance in 2009 compare with the Annual Performance Objective documented in your 2008 Annual Report? The performance target was set at an annual increase in enrollment of 2,000 children. In FFY2009 enrollment increased by 2,815 children. The program exceeded the goal by 815 children.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? There was a substantial increase in the number of enrollees from 2008 to 2009. We attribute this to continued efforts to simplify the application and renewal process, and our ongoing outreach activities under the Apple Health for Kids campaign. These outreach efforts employ Application Agents who are paid a fee for each successfully enrolled child. The income limit for the program also increased from 250%FPL to 300%FPL, bringing in an additional group of children who were previously not eligible.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2010 compare with the Annual Performance Objective documented in your 2009 Annual Report? Enrollment increased by 7,386 in 2010. This exceeded our objective by over 5,000 enrollees. Some of this increase can be attributed to the fact that there was no increase in the FPL standard in 2010. Historically, the April increase in the FPL has resulted in 1,000 - 2,000 CHIP children being transferred over to Medicaid.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? We are in our second year of having electronic signature and having an upper income limit for the CHIP program set at 300%FPL. Twelve month continuous eligibility has helped to maintain enrollee's connection to the program. We also utilize application agents to facilitate enrollment and managed care organizations to facilitate renewals, both of which have helped to increase overall enrollment in the program.</p>	<p>Explanation of Progress:</p> <p>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report? We exceeded performance objectives by over 500 enrollees.</p> <p>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal? Our data collection reports have matured and stabilized allowing us access to timely accurate information. We also continue to work with our community partners on application and renewal strategies to maintain connectivity to benefits.</p>

FFY 2009	FFY 2010	FFY 2011
<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2010: Increase enrollment by 2,000 children in 2010.</p> <p>Annual Performance Objective for FFY 2011: Increase enrollment by 2,000 children in 2010.</p> <p>Annual Performance Objective for FFY 2012: Increase enrollment by 2,000 children in 2010.</p> <p><i>Explain how these objectives were set:</i> Objectives set based on recent enrollment trends.</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2011: Increase enrollment by 2,000 children in 2011.</p> <p>Annual Performance Objective for FFY 2012: Increase enrollment by 2,000 children in 2012.</p> <p>Annual Performance Objective for FFY 2013: Increase enrollment by 2,000 children in 2013.</p> <p><i>Explain how these objectives were set:</i> Objectives set based on enrollment trends. Recently the poor economy has resulted in a substantial increase in CHIP enrollment as family's lost employer-based healthcare due to unemployment. It is hoped that with an improving economy, the enrollment trend in CHIP will slow down but still make headway into the uninsured population between 200% and 300%FPL.</p>	<p>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</p> <p>Annual Performance Objective for FFY 2012: Increase enrollment by 2,000 children in 2012.</p> <p>Annual Performance Objective for FFY 2013: Increase enrollment by 2,000 children in 2013.</p> <p>Annual Performance Objective for FFY 2014: Increase enrollment by 2,000 children in 2014.</p> <p><i>Explain how these objectives were set:</i> Conservative estimate based on historical trends in enrollment.</p>
<p>Other Comments on Measure:</p>	<p>Other Comments on Measure: Based on the 2010 WSPS, there were just over 12,000 US citizen children in Washington state who were uninsured with family income between 200%-300%FPL. This figure will be reviewed again in 2012 to see if the enrollment objective remains reasonable</p>	<p>Other Comments on Measure:</p>

Other Comments on Measure:	Other Comments on Measure:	Other Comments on Measure:

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

None to report at this time.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

As part of the managed care RFP process to be finalized in 2012 we anticipate adopting a number of the new performance measures set forth in this annual report. We expect that we will have data on these measurements beginning in 2013.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

No.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives health coverage initiatives. **[7500]**

Enter any Narrative text below **[7500]**.

We expect to have a more comprehensive response to this section in the next annual report.

SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

Please reference and summarize attachments that are relevant to specific questions

A. OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

Outreach funding was largely eliminated in 2011 because of our state's budget crisis. However, we did continue to work closely with community partners and managed care organizations on outreach and renewal activities.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

We have used all of the methods mentioned here. Working with our community partners continues to be our most effective means of reaching low-income, uninsured children. Through the community based organization WithinReach an online application assistance tool ParentHelp123 has been made available. WithinReach also operates a contracted 800# to provide information on medical assistance eligibility. In addition, using enrollment contractors has proven successful in increasing the enrollment of low-income children. We have also promoted an "Apple Health for Kids" website that provides information about medical coverage for children and provides helpful information on how to apply as well as a link to the online application. Here is the website:
<http://hrsa.dshs.wa.gov/applehealth/>

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

Our Application Agent model has been highly effective in reaching low-income, uninsured children. We also continue to support the work of our community partners on promoting Apple Health for Kids. The WithinReach 800# has also been very useful in providing families with assistance in enrolling in the program.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes

No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

Our state has conducted targeted outreach efforts based on populations of children likely to be eligible for Medicaid. We have cross-referenced lists of children on WIC, Free & Reduced Lunch, and SNAP programs against our list of children on medical assistance. Children on one of these food programs are likely to be eligible for medical assistance, this information is provided to Application Agents to target their enrollment efforts. We have tracked the number of children approved for medical assistance who received application assistance from Application Agents.

5. What percentage of children below 200 percent of the Federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5] 80**

(Identify the data source used). **[7500]**

Based on the 2010 Washington State Population Survey, 80% of Washington's children in households' below 200%FPL are enrolled in Medicaid. Of the 20% of children in this income range who are not enrolled in Medicaid, only 4% are uninsured.

B. SUBSTITUTION OF COVERAGE (CROWD-OUT)

All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.

1. Do you have substitution prevention policies in place?

- Yes
 No

If yes, indicate if you have the following policies:

- Imposing waiting periods between terminating private coverage and enrolling in CHIP
 Imposing cost sharing in approximation to the cost of private coverage
 Monitoring health insurance status at the time of application
 Other, please explain **[7500]**

Our only cost-sharing measure is a monthly premium. While not large (\$20 or \$30/mo per child; \$40 - \$60/mo family maximum), these rates are not substantially lower than the difference in employer based coverage between employee + spouse rates and employee + spouse + children rates.

2. Describe how substitution of coverage is monitored and measured and how the State evaluates the effectiveness of its policies. **[7500]**

Substitution of coverage is monitored at application and review when each client is asked about the presence of other available healthcare coverage. If other coverage was available the application or recertification was denied. The information regarding the denial was entered into a manual tracking data base. Historically fewer than 5% of applicants had other insurance available at the time of application, fewer than 1% of applicants had dropped employer-sponsored insurance within 4 months of application. The state is continuing to develop an electronic report that will automatically track these denials.

In addition to asking the client for information about healthcare coverage, staff review available billing data in MMIS to see if prospective enrollees have other health insurance. In addition to this review, our department also gathers information from the Division of Child Support, PARIS/DEERS (Tri-Care), Healthy Options, and One Health Port to see if third party insurance exists.

3. Identify the trigger mechanism or point at which your substitution prevention policy is instituted or modified if you currently have a substitution policy. **[7500]**

The presence of other health insurance is investigated at each application and annual review. If creditable coverage is present, the family's application is denied, or their coverage is terminated.

All States must complete the following questions

4. At the time of application, what percent of CHIP applicants are found to have Medicaid [(# applicants found to have Medicaid/total # applicants) * 100] **[5]** 0
and what percent of applicants are found to have other group insurance [(# applicants found to have other insurance/total # applicants) * 100] **[5]**? 1
Provide a combined percent if you cannot calculate separate percentages. **[5]**
5. What percent of CHIP applicants cannot be enrolled because they have group health plan coverage **[5]** 1

- a. Of those found to have had other, private insurance and have been uninsured for only a portion of the state's waiting period, what percent meet your state's exemptions to the waiting period (if your state has a waiting period and exemptions) [(# applicants who are exempt/total # of new applicants who were enrolled)*100]? **[5]**

0

6. Does your State have an affordability exception to its waiting period?

- Yes
 No

If yes, please respond to the following questions. If no, skip to question 7.

- a. Has the State established a specific threshold for defining affordability (e.g., when the cost of the child's portion of the family's employer-based health insurance premium is more than X percent of family income)?

- Yes
 No

If the State has established a specific threshold, please provide this figure and whether this applies to net or gross income. If no, how does the State determine who meets the affordability exception? **[7500]**

The affordability exception is 2.5% of the family's countable (net) income.

- b. What expenses are counted for purposes of determining when the family exceeds the affordability threshold? (e.g., Does the State consider only premiums, or premiums and other cost-sharing charges? Does the State base the calculation on the total premium for family coverage under the employer plan or on the difference between the amount of the premium for employee-only coverage and the amount of the premium for family coverage? Other approach?) **[7500]**

Countable expenses include the cost of employer sponsored dependent coverage (premium difference between employee-only coverage and family coverage) and other cost sharing expenses (co-pays, co-insurance, and deductibles).

- c. What percentage of enrollees at initial application qualified for this exception in the last Federal Fiscal Year? (e.g., Number of applicants who were exempted because of affordability exception/total number of applicants who were enrolled). **[5]**

0

- d. Does the State conduct surveys or focus groups that examine whether affordability is a concern?

- Yes
 No

If yes, please provide relevant findings. **[7500]**

7. If your State does not have an affordability exception, does your State collect data on the cost of health insurance for an individual or family? **[7500]**

n/a

8. Does the State's CHIP application ask whether applicants have access to private health insurance?

- Yes
 No

If yes, do you track the number of individuals who have access to private insurance?_

- Yes
 No

If yes, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last Federal Fiscal Year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)*100]? [5]

C. ELIGIBILITY

(This subsection should be completed by all States)

Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Section IIIC: Subpart A: Overall CHIP and Medicaid Eligibility Coordination

1. Does the State use a joint application for establishing eligibility for Medicaid or CHIP?

- Yes
 No

If no, please describe the screen and enroll process. [7500]

2. Please explain the process that occurs when a child's eligibility status changes from Medicaid to CHIP and from CHIP to Medicaid. Have you identified any challenges? If so, please explain. [7500]

Our Automated Client Eligibility System (ACES) interpretes changes in income and sorts children into the correct eligibility group. At application, each child's eligibility is automatically first determined for Medicaid, then if not income eligible, eligibility for CHIP is determined. A child on Medicaid, for whom an increase in income is reported at renewal, is shifted to CHIP if the reported income exceeds the Medicaid income limit. Similarly, a child on CHIP, for whom a decrease in income is reported at renewal, is automatically shifted down to Medicaid. 12 month continuous eligibility rules apply. If during the middle of the certification period a Medicaid child has an increase in income above the Medicaid standard, no change is made to the child's eligibility. The child remains open on Medicaid. If, however, a CHIP child reports a decrease in income to below the Medicaid standard during the certification period, the child is shifted to the Medicaid program for the remainder of the certification period.

3. Are the same delivery systems (such as managed care or fee for service,) or provider networks used in Medicaid and CHIP? [7500]

- Yes
 No

If no, please explain. [7500]

4. Do you have authority in your CHIP State plan to provide for presumptive eligibility, and have you implemented this? Yes No

If yes

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? [5]
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination those children are determined eligible and enrolled? [5]

Section IIIC: Subpart B: Initial Eligibility, Enrollment, and Renewal for CHIP (Title XXI) and Medicaid (Title XIX) Programs

Table B1

This section is designed to assist CMS and the States track progress on the “5 out of 8” eligibility and enrollment milestones. It will not be used to determine CHIPRA performance bonus payments.

Program Feature	Question	Medicaid	CHIP
Continuous Eligibility	<p>1. Does the State provide continuous eligibility for 12 months for children regardless of changes in circumstances other than the situations identified below:</p> <p>a. child is no longer a resident of the State;</p> <p>b. death of the child;</p> <p>c. child reaches the age limit;</p> <p>d. child/representative requests disenrollment;</p> <p>e. child enrolled in a separate CHIP program files a Medicaid application, is determined eligible for Medicaid and is enrolled in Medicaid without a coverage gap.</p>	<p>In accordance with section 1902(e)(12) of the Act</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
Liberalization of Asset (or Resource Test) Requirements	<p>2. Does the State have an assets test?</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>

	3. If there is an assets test, does the State allow administrative verification of assets?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
Elimination of In-Person Interview	4. Does the State require an in-person interview to apply?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	5. Has the State eliminated an in-person requirement for renewal of CHIP eligibility?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Use of Same Application and Renewal Forms and Procedures for Medicaid and CHIP	6. Does the State use the same application form, supplemental forms, and information verification process for <i>establishing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
	7. Does the State use the same application form, supplemental forms, and information verification process for <i>renewing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Automatic/Administrative Renewal	8. For renewals of Medicaid or CHIP eligibility, does the State provide a preprinted form populated with eligibility information available to the State, to the child or the child's parent or other representative, along with a notice that eligibility will be renewed and continued based on such information unless the State is provided other information that affects eligibility?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	9. Does the State do an ex parte renewal? Specifically, does the State renew Medicaid or CHIP eligibility to the maximum extent possible based on information contained in the individual's Medicaid file or other information available to the State, before it seeks any information from the child's parent or representative?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No	If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No
Presumptive Eligibility	10. Does the State provide presumptive eligibility to children	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

	who appear to be eligible for Medicaid and CHIP to enroll pending a full determination of eligibility?		
Express Lane Eligibility	11. Are you utilizing the Express Lane option in making eligibility determinations and/or renewals for both Medicaid and CHIP?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
			If yes, which Express Lane Agencies are you using? <input type="checkbox"/> Supplemental Nutrition Assistance Program (SNAP), formerly Food Stamps <input type="checkbox"/> Tax/Revenue Agency <input type="checkbox"/> Unemployment Compensation Agency <input type="checkbox"/> Women, Infants, and Children (WIC) <input type="checkbox"/> Free, Reduced School Lunch Program <input type="checkbox"/> Subsidized Child Care Program <input type="checkbox"/> Other, please explain. [7500]
			If yes, what information is the Express Lane Agency providing? <input type="checkbox"/> Income <input type="checkbox"/> Resources <input type="checkbox"/> Residency <input type="checkbox"/> Age <input type="checkbox"/> Citizenship <input type="checkbox"/> Other, please explain. [7500]
Premium Assistance	12. Has the State implemented premium assistance as added or modified by CHIPRA?	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Section IIIC: Subpart C: Eligibility Renewal and Retention

CHIP (Title XXI) and Medicaid (Title XIX) Programs

1. What additional measures, besides those described in Tables B1 or C1, does your State employ to simplify an eligibility renewal and retain eligible children in CHIP?

Conducts follow-up with clients through caseworkers/outreach workers

Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program?

[500]

3 notices are sent prior to disenrolling the child from the program.

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?) **[500]**

The first notice that an eligibility review is due is sent approximately 5 weeks prior to the end of the certification period. The second notice indicating that a review has not been received is mailed in the middle of the month in which the review is due. A third notice indicating benefits will end if a review is not completed is sent 10 days before the end of the certification period.

Other, please explain: **[500]**

Additionally we work with our managed care plans by providing them a list of children who are

due for review. Outreach specialists at the managed care plans contact the families to assist them with completing an electronic review.

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. **[7500]**

We have developed a one page simplified renewal form which we began using in August of 2009 (in place of the previously used pre-filled review form). This one page form is simple to fill out and encourages the client to call the 800# on the form to conduct a phone review in place of completing the form.

We provide our contracted managed care plans with a list of children whose renewals are due. MCO staff call the families to assist in completion of the renewal process. The MCO representative will actually complete the online review with the client while they have them on the phone, and electronically submit it to our department.

We do not have a specific evaluation of these methods at this time.

Section IIIC: Subpart D: Eligibility Data

Table 1. Application Status of Title XXI Children in FFY 2011

States are required to report on questions 1 and 2 in FFY 2011. Reporting on questions 2.a., 2.b., and 2.c. is voluntary in FFY 2011 and FFY 2012. Reporting on questions 2.a., 2.b., and 2.c. is required in 2013. Please enter the data requested in the table below and the template will tabulate the requested percentages.

	Number	Percent
1. Total number of title XXI applicants	18197	100
2. Total number of application denials	6706	36.9
a. Total number of procedural denials	0	
b. Total number of eligibility denials	6706	36.9
i. Total number of applicants denied for title XXI and enrolled in title XIX	0	
c. Total number of applicants denied for other reasons Please indicate: (Check here if there are no additional categories <input checked="" type="checkbox"/>)		

3. Please describe any limitations or restrictions on the data used in this table: 1. We do not carry data that distinguishes eligibility denials from procedural denials.
4. 2. CHIP eligibility is part of a continuum with Medicaid. Applicants are not denied CHIP when they are approved for Medicaid.
- 5.

Definitions:

1. The “total number of title XXI applicants,” including those that applied using a joint application form, is defined as the total number of applicants that had an eligibility decision made for title XXI in FFY 2011. This measure is for applicants that have not been previously enrolled in title XXI or they were previously enrolled in title XXI but had a break in coverage, thus requiring a new application. Please include only those applicants that have had a Title XXI eligibility

determination made in FFY 2011 (e.g., an application that was determined eligible in September 2011, but coverage was effective October 1, 2011 is counted in FFY 2011).

2. The “the total number of denials” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2011. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2011 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
 - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2011 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX
 - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Table 2. Redetermination Status of Children Enrolled in Title XXI

For this table, States may voluntarily report in 2011 and 2012. Reporting is required for 2013.

Is the State reporting this data in the 2011 CARTS?

- Yes (complete) State is reporting all measures in the redetermination table.
- Yes (but incomplete) Please describe which measures the State did not report on, and why the State did not report on these measures.
Explain: [7500]
- No If the State is not reporting any data, please explain why.
Explain: [7500] Voluntary this year. We will report data in 2013.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

	Number	Percent			
1. Total number of children who are eligible to be redetermined		100%			
2. Total number of children screened for redetermination			100%		
3. Total number of children retained after the redetermination process					
4. Total number of children disenrolled from title XXI after the redetermination process				100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures					
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria					100%
i. Disenrolled from title XXI because income too high for title XXI					

(If unable to provide the data, check here <input type="checkbox"/>)					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/>)					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid expansion and this data is not relevant check here <input type="checkbox"/>)					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/>)					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/>)					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any State policies or procedures that may have impacted the redetermination outcomes data.

Definitions:

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in Federal Fiscal Year (FFY) 2011, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total number may include children whose eligibility can be renewed through administrative redeterminations, whereby the State sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes. This total may also include ex parte redeterminations, the process when a State uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the State for redetermination in FFY 2011 (i.e., those children whose families have returned redetermination forms to the State, as well as administrative redeterminations and ex parte redeterminations).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2011.

4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2011. This includes those children that States may define as “transferred” to Medicaid for title XIX eligibility screening.
 - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2011 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their State’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
 - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.

The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XXI, Second Quarter FFY 2012

The purpose of this table is to measure title XXI enrollees’ duration, or continuity, of public coverage (title XIX and title XXI). This information is required by CHIPRA, Section 402(a). **Reporting is not required until 2013, but States will need to identify newly enrolled children in the second quarter of FFY 2012 (January, February, and March of 2012). If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary.**

Instructions: For this prospective duration measure, please identify newly enrolled children in title XXI in the second quarter of FFY 2012, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2012 must have birthdates after July 1995 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2012 must have birthdates after August 1995, and children enrolled in March 2012 must have birthdates after September 1995. Each child newly enrolled during this time frame needs a unique identifier or “flag” so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary. Please follow the child based on the child’s age category at the time of enrollment (e.g., the child’s age at enrollment creates an age cohort that does not change over the 18 month time span). Please enter the data requested in the table below and the template will tabulate the percentages.

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in either title XXI or title XIX in December 2011, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in title XXI in December 2011, etc.)

Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2012		100%		100%		100%		100%		100%
Enrollment Status 6 months later										
2. Total number of children continuously enrolled in title XXI										
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
3.a. Total number of children enrolled in										

Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
4. Total number of children disenrolled from title XXI										
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										
Enrollment Status 12 months later										
5. Total number of children continuously enrolled in title XXI										
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
7. Total number of children disenrolled from title XXI										
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Enrollment Status 18 months later										
8. Total number of children continuously enrolled in title XXI										
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/>)										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/>)										

Definitions:

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2012” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
 - + the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who were continuously enrolled through July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who were continuously enrolled through August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who were continuously enrolled through September 2012

3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2012
 - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.

4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were disenrolled by July 2012
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were disenrolled by August 2012
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were disenrolled by September 2012
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.

5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through January 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through February 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through March 2013

6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and then re-enrolled in title XXI by January 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and then re-enrolled in title XXI by February 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and then re-enrolled in title XXI prior to March 2013
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.

7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were enrolled in January 2012 and were disenrolled by January 2013
 - + the number of children with birthdates after August 1995, who were enrolled in February 2012 and were disenrolled by February 2013
 - + the number of children with birthdates after September 1995, who were enrolled in March 2012 and were disenrolled by March 2013
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.

8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through September 2013

9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2013
 - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and disenrolled by July 2013
 - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and disenrolled by August 2013
 - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and disenrolled by September 2013

D. COST SHARING

1. Describe how the State tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?
 - a. Cost sharing is tracked by:
 - Enrollees (shoebox method)
If the State uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**
 - Health Plan(s)
 - State
 - Third Party Administrator
 - N/A (No cost sharing required)
 - Other, please explain. **[7500]**
There is no cost sharing other than a monthly premium. The cumulative amount of this premium is no more than 1.5% of the household's income. Alaskan Natives, American Indians are exempt from the premium.
2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased? **[7500]** Yes No
3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**
Not applicable. There are no co-pays or deductibles.
4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the State's CHIP program during the Federal fiscal year. **[500]**
0%
5. Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?
 Yes
 No

If so, what have you found? **[7500]**
6. Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?
 Yes
 No

If so, what have you found? **[7500]**
7. If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

N/A

E. EMPLOYER SPONSORED INSURANCE PROGRAM (INCLUDING PREMIUM ASSISTANCE PROGRAM(S)) UNDER THE CHIP STATE PLAN OR A SECTION 1115 TITLE XXI DEMONSTRATION

1. Does your State offer an employer sponsored insurance program (including a premium assistance program) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.
 No, skip to Program Integrity subsection.

Children

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(3))
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(10))
 Section 1115 Demonstration (Title XXI)
 Premium Assistance Option (applicable to Medicaid expansion) children (1906)
 Premium Assistance Option (applicable to Medicaid expansion) children (1906A)

Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(10))
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(3))
 Section 1115 Demonstration (Title XXI)
 Premium Assistance option under the Medicaid State Plan (1906)
 Premium Assistance option under the Medicaid State Plan (1906A)
2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)
- Parents and Caretaker Relatives
 Childless Adults
 Pregnant Women
3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**
4. What benefit package does the ESI program use? **[7500]**
5. Are there any minimum coverage requirements for the benefit package?
- Yes
 No
6. Does the program provide wrap-around coverage for benefits?
- Yes
 No

7. Are there any limits on cost sharing for children in your ESI program?

- Yes
- No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes
- No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes No If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum [7500]?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

_____ Number of childless adults ever-enrolled during the reporting period

_____ Number of adults ever-enrolled during the reporting period

_____ Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2011

Children _____

Parents _____

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Identify the total state expenditures for providing coverage under your ESI program during the reporting period. **[7500]**

17. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Children	Parent
State:	State:
Employer:	Employer:
Employee:	Employee:

18. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

Children	Low	High
Parents	Low	High

19. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

20. Do you have a cost effectiveness test that you apply in determining whether an applicant can receive coverage (e.g., the state's share of a premium assistance payment must be less than or equal to the cost of covering the applicant under CHIP or Medicaid)?

- Yes
 No

21. Please provide the income levels of the children or families provided premium assistance.

	From	To
Income level of Children:	% of FPL[5]	% of FPL[5]
Income level of Parents:	% of FPL[5]	% of FPL[5]

22. Is there a required period of uninsurance before enrolling in premium assistance? **[500]**

- Yes
 No

If yes, what is the period of uninsurance? **[500]**

23. Do you have a waiting list for your program?

- Yes
 No

24. Can you cap enrollment for your program?

- Yes
 No

25. What strategies has the State found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text below. **[7500]**

F. PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS (I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS))

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

- (1) prevention: Yes No
(2) investigation: Yes No
(3) referral of cases of fraud and abuse? Yes No

Please explain: **[7500]**

Staff are trained and provided written material in the EAZ manual that describe methods for prevention, investigation, and referral of cases for fraud.

Do managed health care plans with which your program contracts have written plans?

- Yes
 No

Please Explain: **[500]**

The MCO's have a compliance plan included in their contracts that describes how they are to communicate possible fraud and abuse to the department.

2. For the reporting period, please report the

 6 Number of fair hearing appeals of eligibility denials
 0 Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

a. Provider Credentialing

 0 Number of cases investigated
 0 Number of cases referred to appropriate law enforcement officials

b. Provider Billing

34 Number of cases investigated

5 Number of cases referred to appropriate law enforcement officials

c. Beneficiary Eligibility

109 Number of cases investigated

7 Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain : **[7500]**

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please explain: **[500]**

G. DENTAL BENEFITS – Reporting is required in 2010 CARTS

Is the State reporting this data in the 2011 CARTS?

Yes If yes, then please complete G1 and G2.

No If the State is not reporting data, please explain why.
Explain: **[7500]**

1. Information on Dental Care for CHIP Children (Include all delivery types, i.e. MCO, PCCM, FFS).

Data for this table are based from the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

a. Annual Dental Participation Table for CHIP Enrolled Children (Include children receiving full CHIP benefits and supplemental benefits) .

Please check which populations of CHIP children are included in the following table:

- Medicaid Expansion
- Separate CHIP
- Both Medicaid Expansion and Separate CHIP

State: WA FFY: WA	Age Group						
	Total	< 1	1-2*	3-5	6-9	10-14	15-18
Total Enrollees Receiving Any Dental Services ¹	15425	57	1133	2649	4101	4579	2906
Total Enrollees Receiving Preventive Dental Services ²	14147	51	1036	2501	3856	4229	2474
Total Enrollees Receiving Dental Treatment Services ³	6923	4	195	991	2028	2165	1540

*Includes 12-month visit

¹**Total Eligibles Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (CDT codes D0100 - D9999).

²**Total Eligibles Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 -(CDT codes D1000 - D1999).

³**Total Eligibles Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (CDT codes D2000 - 09999).

- b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a protective sealant on at least one permanent molar tooth⁴? [7]

1261

⁴**Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in CHIP for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth regardless of whether the sealant was provided by a dentist or a non-dentist, as defined by HCPCS code D1351 (CDT code D1351).

2. Does the State provide supplemental dental coverage? Yes No

If yes, how many children are enrolled? [7]

What percent of the total amount of children have supplemental dental coverage? [5]

SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (Note: This reporting period =Federal Fiscal Year 2011. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

	2011	2012	2013
Benefit Costs			
Insurance payments	0	0	0
Managed Care	30896483	34971291	28434003
Fee for Service	28138671	29856348	28612648
Total Benefit Costs	59035154	64827639	57046651
(Offsetting beneficiary cost sharing payments)	-5176956	-5763346	-4659703
Net Benefit Costs	\$ 53858198	\$ 59064293	\$ 52386948

Administration Costs

Personnel	839798	881788	925877
General Administration	232931	244578	256807
Contractors/Brokers (e.g., enrollment contractors)	695421	730192	766702
Claims Processing	90659	95192	99952
Outreach/Marketing costs	9825	0	0
Other (e.g., indirect costs)	0	0	0
Health Services Initiatives	881554	945714	945714
Total Administration Costs	2750188	2897464	2995052
10% Administrative Cap (net benefit costs ÷ 9)	5984244	6562699	5820772

Federal Title XXI Share	36795451	40275142	35998300
State Share	19812935	21686615	19383700

TOTAL COSTS OF APPROVED CHIP PLAN	56608386	61961757	55382000
--	----------	----------	----------

2. What were the sources of non-Federal funding used for State match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) [500]

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough Federal CHIP funds for your program? **[1500]**

No.

4. In the table below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

	2011		2012		2013	
	# of eligibles	\$ PMPM	# of eligibles	\$ PMPM	# of eligibles	\$ PMPM
Managed Care	20603	\$ 125	22945	\$ 127	24735	\$ 128
Fee for Service	10766	\$ 205	10760	\$ 231	10807	\$ 244

Enter any Narrative text below. **[7500]**

FFS \$PMPM listed above combines FFS rates for children 0 - 18 with FFS rates for unborn children (which is higher as a distinct population) resulting in overall higher PMPM rates. See figures below for the individual rates.

2011 - FFS(0-18)3,925 enrollees \$195/pmpm;FFS(unborn)6,851 enrollees \$206/pmpm
 2012 - FFS(0-18)4,371 enrollees \$207/pmpm;FFS(unborn)6,389 enrollees \$247/pmpm
 2012 - FFS(0-18)4,712 enrollees \$291/pmpm;FFS(unborn)6,095 enrollees \$264/pmpm

SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY CHIP)

Please reference and summarize attachments that are relevant to specific questions.

- If you do not have a Demonstration Waiver financed with CHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

CHIP Non-HIFA Demonstration Eligibility					HIFA Waiver Demonstration Eligibility				
* Upper % of FPL are defined as Up to and Including									
Children	From		% of FPL to	% of FPL *	From		% of FPL to	% of FPL *	
Parents	From		% of FPL to	% of FPL *	From		% of FPL to	% of FPL *	
Childless Adults	From		% of FPL to	% of FPL *	From		% of FPL to	% of FPL *	
Pregnant Women	From		% of FPL to	% of FPL *	From		% of FPL to	% of FPL *	

- Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your CHIP demonstration during the reporting period.

_____ Number of **children** ever enrolled during the reporting period in the demonstration

_____ Number of **parents** ever enrolled during the reporting period in the demonstration

_____ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

_____ Number of **childless adults** ever enrolled during the reporting period in the demonstration
 (*Only report for 1st Quarter of the FFY)

- What have you found about the impact of covering adults on enrollment, retention, and access to care of children? You are required to evaluate the effectiveness of your demonstration project, so report here on any progress made in this evaluation, specifically as it relates to enrollment, retention, and access to care for children. **[1000]**

- Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	2011	2012	2012	2014	2015

Federal Title XXI Share					
State Share					

TOTAL COSTS OF DEMONSTRATION					
-------------------------------------	--	--	--	--	--

When was your budget last updated (please include month, day and year)? [500]

Please provide a description of any assumptions that are included in your calculations. **[7500]**

Other notes relevant to the budget: **[7500]**

SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

The state's economy continues to be slow with resulting higher rates of unemployment. The results are increased enrollment in Medicaid/CHIP, though the rate of growth has slowed somewhat. However, it is not anticipated that the state will make any cuts to children's coverage this legislative session.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

The continued growth in enrollment in the CHIP program. Caseloads are higher, with fewer staff. As a result we are utilizing every administrative efficiency available (such as electronic verification of income) in order to meet application processing timelines and manage the annual review process.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

We recieved a CHIPRA Performance Bonus Award for the 3rd straight year. Our state was also awarded a CHIPRA outreach (technology) grant. Despite increasing caseloads our state continues to have one of the lowest rates of uninsurance in the country due to the hard work of eligibility staff and cooperative efforts of community partners assisting with the outreach and renewal process.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

We are considering state plan amendments for transitioning our separate CHIP plan to a combination program and covering the children of low-income public employees.

Enter any Narrative text below. **[7500]**
